Beyond Feminist Aesthetic:

Beyond Feminist Aesthetics Rita Felski, 1989 *Beyond Feminist Aesthetics* has a dual focus First Rita Felski gives a critical account of current American and European feminist literary theory and second she offers an analysis of contemporary fiction by women drawing in particular on the genres of the autobiographical confession and the novel of self discovery in order to show that this literature raises questions for feminism that cannot be answered in terms of a purely gender based analysis Felski argues that the idea of a feminist aesthetic is a nonissue that feminists have needlessly pursued she suggests in contrast that it is impossible to speak of masculine and feminine subversive and reactionary literary forms in isolation from the social conditions of their production and reception The political value of such works of literature from the standpoint of feminism can be determined only by an investigation of their social functions and effects in relation to the interests of women in a particular historical context This leads her to argue for an interdisciplinary approach to the analysis of literature which can integrate literary and social theory and to develop such an approach by drawing upon the model of a feminist counter public sphere Rita Felski has produced a closely reasoned stimulating book that creates a new framework for discussing the relationship between literature and feminist politics It will interest students and teachers of women s studies comparative literature cultural studies and fiction

The New Aestheticism John J. Joughin, Simon Malpas, 2003 This text introduces the notion of a new aestheticism new insofar as it identifies a turn taken by some contemporary thinkers towards the idea that focussing on the aesthetic impact of a work of art or literature has the potential to open different ways of thinking about identity politics and culture

The Mask of Art Clyde Taylor, 1998-11-22 Taylor exposes the concept of art as a tool of ethnocentricity and radical ideology He challenges the history of aesthetics as a recent invention of privileged Western consumerism and questions the myth of its ancient Greek origin

Art and Interpretation Eric Dayton, 1999-02-02 *Art and Interpretation* is a comprehensive anthology of readings on aesthetics Its aim is to present fundamental philosophical issues in such a way as to create a common vocabulary for those from diverse backgrounds to communicate meaningfully about aesthetic issues To that end the editor has provided selections from a wide variety of challenging works in aesthetic theory both classical and modern The approach is often cross disciplinary Within the discipline of philosophy it seeks to balance readings from the analytic tradition with continental European hermeneutical postmodern including deconstructionist and feminist readings The anthology is thus broadly conceived but by grouping the readings into sections such as Expression and Aesthetic object Psychology and Interpretation Marxist Theory and Culture Gender and Difference it aims as well to provide depth of coverage for each topic or issue The book opens with a historical section containing substantial selections from Plato Aristotle Hume Kant Shelley and Nietzsche these readings introduce themes that recur and are developed in the remainder of the anthology

Theatre and Feminist Aesthetics Karen Louise Laughlin, Catherine Schuler, 1995 These essays extend reinforce and often challenge one another in their views of the possibility or even the desirability of articulating feminist

historical perspective that is attuned to cultural and political differences within the same time as well as the leaky boundaries between different times Neither the modern nor the postmodern are unified coherent or self evident realities Drawing on cultural studies and critical theory Felski examines a range of themes central to debates about postmodern culture including changing meanings of class the end of history the status of art and aesthetics postmodernism as the end of sex and the politics of popular culture Placing women at the center of analysis she suggests has a profound impact on the way we think about historical periods As a result feminist theory is helping to reshape our vision of both the modern and the postmodern

Aesthetics: Issues and challenges James O. Young, 2005 This collection brings together classic and contemporary writings on the philosophy of art All of the various artistic genres are addressed with sections on film dance and architecture as well as music literature and the visual arts *Australian Journal of Art*, 1991 **Envisioning American Women** Maria Mårdberg, 1998 This study explores female identity formation in novels by women of colour from the 1970 s and 1980 s Drawing on feminist discussions of gender race and identity it contends that while generalized notions based on race and gender are valid they must be used with caution The selected novels share certain formal and thematic characteristics when depicting marginalized American women of colour which motivates bringing them together The book traces a few significant models of identity formation connected to genres such as feminist versions of the Kuenstlerroman the Bildungsroman and the novel of awakening Thinking Art Andrew E. Benjamin, Peter Osborne, 1991 Met lit opg Collection of essays in which recent painting photography music architecture performance and cinema is subjected to a wide range of critical and theoretical perspectives in an investigation of the fractured space beyond traditional aesthetics where new ways of thinking about art can develop adequate to its current concerns
