

### **Psychoanalytical Approach:**

**Definition:** Psychoanalysis is a theory about the human mind. Psychoanalytic concepts are prevalent in our everyday life, and criticism related to these is psychoanalytic criticism. It came into being during the 1920s. This criticism can be understood as emerging from the romantic view that literature is an expression of its author's *persona*.

Psychological criticism analyses the processes in the mind of the poet while he is composing a poem and the processes in the mind of the reader while he is reading it, in the belief that before we can judge and evaluate a work of art we must know what it is and how it came about.

The nature of literary genius has always attracted speculation, and it was as early as the Greeks, conceived of as related to "madness". The poet is the "possessed": he is unlike other men, at once less and more; and the unconscious out of which he speaks is felt to be at once sub and super rational.

Another early and persistent conception is that of the poet's "gift" as compensatory: the Muse took away the sight of Demodocos' eyes but "gave him the lovely gift of song" in the *Odyssey*, as the blinded Tiresias is given prophetic vision in Sophocles' *Oedipus Rex*. Handicap and endowment are not always, of course, so directly correlative. Alexander Pope was a hunchback and a dwarf; Lord Byron had a club-foot; Proust was an asthmatic neurotic of partly Jewish descent; John Keats was shorter than other men; Thomas Wolfe much taller. The difficulty with the theory is its very ease. After the event, any success can be attributed to compensatory motivation, for everyone has liabilities that may serve him as spurs.

### **Literature and the Writer's Personality:**

It is based on the assumption that a work of literature is correlated with its author's distinctive mental and emotional traits.

1. Reference is made to the author's personality in order to explain and interpret a literary work;
2. Reference is made to literary works in order to establish, biographically, the personality of the author;
