Beyond Legitimation:

Beyond Legitimation Donald Wiebe, 2016-01-01 The early essays in this volume proceed on the assumption that a compatibility system can be fashioned that will not only bring religious knowledge claims into harmony with scientific claims but will also show there to be a fundamental similarity of method in religious and scientific thinking They are not however unambiguously successful Consequently Professor Wiebe sets out in the succeeding essays to seek an understanding of the religion science relationship that does not assume they must be compatible That examination in the final analysis reveals a fundamental contradiction in the compatibility system building programme which more than suggests that religious belief knowledge is beyond legitimation *Organization Studies and Posthumanism* François-Xavier de Vaujany, Silvia

Gherardi, Polyana Silva, 2024-04-05 This book aims at exploring the reception of critical posthumanist conversations in the context of Management and Organization Studies It constitutes an invitation to de center the human subject and thus an invitation to the ongoing deconstruction of humanism The project is not to deny humans but to position them in relation to other nonhumans more than humans the non living world and all the missing masses from organizational inquiry What is under critique is humanism s anthropocentrism essentialism exceptionalism and speciesism in the context of the Anthropocene and the contemporary crisis the world experiences From climate change to the loss of sense at work to the new geopolitical crisis to the unknown effects of the diffusion of AI all these powerful forces have implications for organizations and organizing A re imagination of concepts theories and methods is needed in organization studies to cope with the challenge of a more than human world *Humanitarian Intervention and the Hermeneutics of Suspicion and Naïveté* Dimitrios E. Akrivoulis, 2025-08-01 This book uses Paul Ricoeur s hermeneutic phenomenology of suspicion and naïveté to shift the focus of the ideology of humanitarian intervention from the distorting Marxism realism and legitimizing social constructivism to the integrating function of this ideology In this context the book examines the ideological functions of the social imaginary pursuant to NATO s 1999 intervention in Kosovo a turning point in the development of humanitarian intervention It will be of great interest to those researching in the fields of International Relations Political Theory and humanitarian intervention

Scientific Models for Religious Knowledge Andrew Ralls Woodward, 2018-08-14 Most comparisons of science and religion are really comparisons of science and Christianity or science and Islam and so forth In *Scientific Models for Religious Knowledge* the author aims to get outside typical polarized debates between traditional a priori theism and radical scientific naturalism Instead a new science and religion compatibility system between a scientific study of religion and a religious epistemology is our new elusive problem Moreover we shall look at a comparison and contrast of modern science with the simple deference of the human mind to the actions of culturally postulated superhuman agents This book pays critical attention to the contributions of scholars in the philosophy of religion the philosophy of science and the scientific study of religion *Scientific Models for Religious Knowledge* is useful for readers looking to expand their

learning in the philosophies of science and religion as these subjects are taught and analyzed in modern research universities
