Beyond Sovereignty The Challenge Of Global Policy Studies In International Relations:

Beyond Sovereignty Marvin S. Soroos,1989 **Global Policy Studies** Stuart S. Nagel,1991-06-18 An analysis of international interactions which have been designed to deal with shared policy problems Such problems include pollution trade common property problems health and education This subject crosses the fields of international relations and comparative public policy studies *Beyond Sovereignty* Marvin S. Soroos,1986 **Global Policymaking** Vincent Pouliot,Jean-Philippe Thérien,2023-03-16 This book analyzes the politics of global governance by looking at how global policymaking actually works It provides a comprehensive theoretical and methodological framework which is systematically applied to the study of three global policies drawn from recent UN activities the adoption of the Sustainable Development Goals in 2015 the institutionalization of the Human Rights Council from 2005 onwards and the ongoing promotion of the protection of civilians in peace operations By unpacking the practices and the values that have prevailed in these three cases the authors demonstrate how global policymaking forms a patchwork pervaded by improvisation and social conflict They also show how global governance embodies a particular vision of the common good at the expense of alternative perspectives The book will appeal to students and scholars of global governance international organizations and global policy studies

Interest Groups, Water Politics and Governance Richard Meissner,2015-07-08 The book investigates the role interest groups have played over the years to influence the governments of Lesotho and South Africa the World Bank and project implementation authorities in changing some policy aspects of the Lesotho Highlands Water Project LHWP Some of the issues being agitated by the interest groups are the resettlement of villagers where some of the dams for the projects are being constructed The author argues that interest groups and individuals have the ability to influence the above mentioned institutions and to such an extent that water politics and governance is not the domain of state institutions only National Development Stuart S. Nagel,2019-08-15 This title was first published in 2000 Super optimizing analysis deals with public policy problems by finding an alternative that enables conservatives liberals and other viewpoints to come out ahead of their expectations simultaneously This text explores the ideas and seeks to make super optimum solutions a matter of routine

Professional Journal of the United States Army ,1996 *International Studies Notes* ,1992 **Wisconsin International Law Journal** ,1988 **Beyond Sovereignty and Anarchy** Jonathan James Edward Havercroft,2006 **The Paradox of NGO-State Relations** Kimberly A. Weir,2003 **Dynamic International Regimes** Thomas Gehring,1994 International environmental regimes are dynamic institutions for international governance in rapidly changing issue areas They comprise cooperative arrangements and permanent negotiation processes This volume examines international governance by environmental regimes empirically and theoretically It thoroughly explores the formation and development of the regimes on long range transboundary air pollution and the protection of the ozone layer Subsequently it develops a theoretical concept of norms and institutions that draws attention to the important role of negotiations and collective

decision making for the improvement of sub optimal outcomes Dynamic international regimes are conceived of as institutions that are highly suitable for international policy making

Power in Contemporary International Politics Michael P. Sullivan, 1990 The international system has gone through major changes since World War II One of the main areas affected has been power relations between nations Analyzing power in international politics has always been a difficult task and in recent years has come under more scrutiny than ever before Many have argued that the concept is irrelevant in the contemporary interdependent world

On Global War William R. Thompson, 1988 *International Affairs*, 1987 *The Global Environment: Institutions, Law, and Policy, 2nd Edition* Regina S Axelrod, David Leonard Downie, Norman J Vig, 2005 A timely collection of essays that analyse key issues institutions laws and policies for the protection of the global environment The new edition of this popular text provides crucial historical background on the development of global environmental organisations and treaties engaging discussions of current and critical global environmental agreements and insights into national and international implementation of sustainable development principles Drawing together a distinguished list of international contributors the book includes six brand new chapters on such important topics as regime theory climate change hazardous chemical controls perspectives of the developing world and the European Union s and United States international environmental policies All other chapters have been thoroughly revised and updated The book includes a useful chronology of global environmental policy and a list of acronyms to help students in critical reading review and study

International Security Studies Peter Hough, Andrew Moran, Bruce Pilbeam, 2025-08-11 Fully revised to incorporate recent developments this third edition of International Security Studies provides students with a comprehensive and accessible textbook on security with a particular emphasis on the use of case studies to illustrate theoretical debates In addition to presenting the major theoretical perspectives the book examines a range of important and controversial topics in covering both traditional military and non military security issues such as nuclear proliferation humanitarian intervention food security and environmental security Unlike most standard textbooks the volume also offers a wide range of case studies including chapters on the US China the Middle East Russia East Africa and the Arctic providing detailed analyses of important global security issues and the application of theoretical debates to major contemporary issues The 36 chapters contain pedagogical features such as textboxes summary points and recommended further reading and are divided into five thematic sections Conceptual and theoretical Military security Non military security Institutions and security Case studies This textbook will be essential reading for all students of security studies and highly recommended for students of critical security studies human security peace and conflict studies foreign policy and International Relations in general

Environmental Policy in the 1990s Norman J. Vig, Michael E. Kraft, 1997 This thought provoking collection of essays puts 25 years of environmental policy development in context by examining the current institutional framework for making policy and how it has emerged the role of environmentalism and public opinion in shaping policy the search for more efficient

policy solutions and the impact of global environmental imperatives This edition covers the new heightened role of the states in making policy environmental justice and the greening of U S businesses among other topics The book also provides an in depth analysis of the 104th Congress on environmental policies and reviews the Clinton administration s environmental record and efforts to reform the Environmental Protection Agency Greening the EU Annica Kronsell,1997 This work argues that Greening the EU entails more than adding environmental policies to existing legislation The author uses a modified garbage can approach to analyze micropolitics ie the way environmental problems have been defined and solutions articulated and adopted **Biographical Memembership Directory** International Studies Association,1992
