Beyond The Civil War Synthesis:

Beyond the Civil War Synthesis Robert P. Swierenga, 1975-11 This collection brings together eighteen outstanding essays originally published in *Civil War History*. All of the contributions are recent. They reflect the latest scholarship on the nonmilitary aspects of the Civil War revisionist viewpoints that are often derived from new social statistical methodologies.

Robert Swierenga, 1975-11-10 A collection of articles in American political history that originally appeared in *Civil War History*. Includes bibliographical references and index. [Aspects of American History](#) Simon Henderson, 2009-01-26

Aspects of American History examines major themes, personalities, and issues across American history using topic-focused essays. Each chapter focuses on key events and time periods within a broad framework looking at liberty and equality, the role of government, and national identity. The volume engages with its central themes through a broad-ranging examination of aspects of the American past, including discussions of political history, foreign policy, presidential leadership, and the construction of national memory. In each essay, Simon Henderson introduces fresh angles to traditional topics, consolidates recent research in themed essays, analyzes views of different historians, offers an interpretive rather than narrative approach, gives concise treatment to complex issues. Including an introduction which places key themes in context, this book enables readers to make comparisons and trace major thematic developments across American history.

Past Forward James Sabathne, Jason Stacy, 2016-09 Over the last fifteen years, undergraduate U.S. history courses have made great progress in incorporating primary sources and diverse voices into the survey. However, teachers still struggle to find professional writing by working historians in a format useful to undergraduates. Also in 2014, the College Board redesigned the AP U.S. History curriculum and assessments to require students to demonstrate a critical approach to historical writing by professional historians. These facts have increased demand among teachers for access to high-quality secondary material by professional historians in a single, convenient publication. *Past Forward* (Articles from the *Journal of American History*) selects some of the best articles from *The Journal of American History* to meet the needs of students and teachers of the U.S. history survey.

Exploring all of the required key concepts and historical thinking skills required in the new AP U.S. History curriculum, the book provides pedagogical and historiographical supports for each article. It also contains concise academic biographies of the authors that highlight their path to practicing history and their major publications, which will draw students deeper into historical discourses.

The Debate on the American Civil War Era Hugh Tulloch, 1999 A historiographical examination of treatments of the Civil War from those that were engaged in it to those of the 1990s The author argues for the centrality of racial assumptions both in the actual conflict and in conflicting interpretations He traces how the historians attitudes and assumptions were partly dictated by time and place and points to an overarching theme of the suppression of the centrality of race in the period following the end of Reconstruction in 1877 and before the emergence of the Civil Rights movement of the 1950s Distributed by St Martin s Press Annotation copyrighted by Book News Inc Portland OR

Harvesting Freedom Akiko Ochiai, 2004-03-30 From early in the Civil War the Sea Islands of South Carolina set the stage for an exciting experiment in freedpeople s independence Lowcountry South Carolina is particularly significant not only for its aristocratic planters and its high profile in the secession but for the degree of autonomy that the slaves acquired during seasons of absentee proprietorship No place ever came closer to realizing the dream of Forty Acres and a Mule than this region and consequently no place saw more vigorous struggles over land possession Proving to the world their abilities to purchase lands to organize cooperatives and to participate in political parties the African Americans of the lowcountry forged and fought for their own agrarian dreams A highlight of Sea Island history was the Port Royal Experiment when northern volunteer missionaries provided education to freedpeople and General Rufus Saxton actively initiated Sherman s Field Orders commandeering the coast for African American homesteaders When freedom gave them the chance this group embraced education and democratic self rule with abilities that even their supporters underestimated This is the true story of their triumphs and failures in the struggle to claim the lands on which their forefathers toiled and died
