

A sepia-toned landscape photograph of a beach. In the foreground, several dark, rounded rocks are scattered across the light-colored sand. To the right, a large, dark, leafy tree stands prominently. The background shows a calm sea meeting a vast, overcast sky with soft, diffused light. The overall mood is quiet and contemplative.

## **Beyond The Lattice Broomes Early Years:**

Beyond the Lattice Susan Sickert, 2017-12 In *Beyond the Lattice* Susan Sickert seeks answers to her questions about this fascinating Australian town She steps off the verandah away from the pearl world of privilege privacy and power behind the lattice She looks instead for the heart of Broome in the lives of the thousands of Asian Aboriginal and mixed race men and women *Beyond the Lattice Broome's Early Years* provides rare insights into the people politics colour and atmosphere that have been fundamental to the creation of modern Broome

*The Outsiders Within* Peta Stephenson, 2007 An engaging account of the ways in which over hundreds of years Indigenous and Asian people across northern and central Australia have traded intermarried and built hybrid communities It is also a disturbing expose of the persistent sometimes paranoid efforts of successive national governments to police marginalize and outlaw these encounters

The Children's Country Stephen Muecke, Paddy Roe, 2020-11-24 In North West Australia between 2009 and 2013 a major Indigenous environmentalist alliance waged a successful campaign to stop a huge industrial development a 45 billion liquefied gas plant proposed by Woodside and its partners The Western Australian government and key Indigenous institutions also pushed hard for this making the custodians of the Country the Goolarabooloo an embattled minority This experimental ethnography documents the Goolarabooloo's knowledge of Country their long history of struggle for survival and the alliances that formed to support them Written in a fictocritical style it introduces a new multirealist kind of analysis that focuses on institutions Indigenous or European their spheres of influence and how they organised to stay alive as alliances shifted and changed

*Japanese Doctors in White Australia* John Lamb, 2025-06-02 Lamb tells the stories of an unusual collection of men who by being aliens in a largely unwelcoming country have been omitted from the historical narrative More than a dozen of these medical practitioners arrived and contributed to the welfare of Australian communities during the hundred years prior to the dismantling of race based immigration policies and this book examines not only what they achieved but the political social and economic context in which they operated and the prejudice with which they dealt Through its forensic investigation of archival materials both in Japan and in Australia as well as contact with descendants of the men this study book throws unprecedented light on their trials and tribulations and on the factors most important in determining acceptance and performance in a discriminatory environment Moreover through its many illustrations explanations and general narrative it draws the reader into the personal lives of the doctors and what they faced At the same time its inclusion of detailed mortality and morbidity statistics and their analysis in conjunction with population and economic parameters will doubtless prove an important resource for medical historians In its depth of research and access to relevant information in both countries and languages this book contributes to Australia Japan relations and understanding and sets a new standard in cross cultural research A valuable resource for Australian and Japanese researchers and students of international immigration medical history the politics and character of racism Asian Studies and International Relations Migrant narratives

further enjoy broad international appeal in countries including Asia the United States and Europe *The Pearl Frontier* Julia T. Martínez, Adrian Vickers, Clem Guthro, 2015-05-31 Remarkable for its meticulous archival research and moving life stories The Pearl Frontier offers a new way of imagining Australian historical connections with Indonesia This compelling view from below of maritime mobility demonstrates how in the colonial quest for the valuable pearl shell Australians came to rely on the skill and labor of Indonesian islanders drawing them into their northern pearling trade empire From the 1860s onward the pearl shell industry developed alongside British colonial conquests across Australia's northern coast and prompted the Dutch to consolidate their hold over the Netherlands East Indies Inspired by tales of pirates and priceless pearls the pearl frontier witnessed the maritime equivalent of a gold rush with traders entrepreneurs and willing workers coming from across the globe But like so many other frontier zones it soon became notorious for its reliance on slave like conditions for Indigenous and Indonesian workers These allegations prompted the imposition of a strict regime of indentured labor migration that was to last for almost a century before giving way to international criticism in the era of decolonization The Pearl Frontier invites the reader to step outside the narrow confines of national boundaries to see seafaring peoples as a continuous population moving and in communication in spite of the obstacles of politics warfare and language Instead of the mythologies of racial purity propagated by settler colonies and European empires this book dissects the social and economic life of the port cities around the Australian Indonesian maritime zone and lays open the complex cosmopolitan relationships which shaped their histories and their present situations Julia Martínez and Adrian Vickers bring together their expertise on Australian and Indonesian history to challenge the isolationist view of Australia's past This book explores how Asian migration and the struggle against the restrictive White Australia policy left a rich legacy of mixed Asian Indigenous heritage that lives on along Australia's northern coastline This book is an important contribution to studies of the coastal or Pasisir culture of Southeast Asia that situates the local cultures in a regional context and demonstrates how Indonesian maritime peoples became part of global migration flows as indentured laborers It offers a hitherto untold story of Indonesian diaspora in Australia and reveals a degree of Indian Pacific interconnectedness that forces us to rethink the construction of regional boundaries and national borders
