

DNA

DNA, oh DNA,
the code of life,
oh so fine it's in each cell,
it's hard to miss it's what makes us who we are,
with a simple twist.

It's made of nucleotides,
a chain so long & double helix,
a beautiful song genes and traits,
it holds them all it's the blueprint of us, standing tall

It's in our blood, it's in our hair
it's in our eyes, it tells us where we came from,
it's our history it's who we are, it's our mystery

So let's respect it, let's understand DNA,
it's the master plan
of life on earth, it's worth exploring DNA,
it's worth adoring

DNA Poems Ron Johnson, 2022-03 *DNA Poems* Ronald Johnson, 1979 *This Mortal Coil* Eric Forsbergh, 2023-09-28

Humans are composed by DNA and through chemical action it maintains and renews us daily This poetry book explores the many facets of our existence through the lens of our own DNA Most of us know who our fathers are but it s not that difficult to find someone who discovered in adulthood the uncomfortable truth through DNA analysis DNA determines our personal identity not counting the effects of environment The topic of DNA covers race medicine sexual attraction procreation family gender vaccines crime eye and hair and skin color COVID longevity national identity mutation relationships with parents and children beauty and ugliness and height to name a few For example the miracle of birth is accompanied by a rush of hormones ensuring the bond between mother and infant Some medical researchers are recording the DNA of large human populations which will lead to broad advances in diagnosis and treatment Some nations are recording the DNA of many or all of their citizens which will lead to privacy invasion and police suppression As with computers such research is a double edged sword This book engages these subjects and more surrounding the central force of DNA

DNA Hymn Annah Anti-Palindrome, 2016-10-18 *DNA Hymn* is a phenomenal work of embrace and exorcism Using lyrical tricks and linguistic intuition Annah Anti Palindrome has mapped a world of survival finding deep beauty everywhere A serious literary triumph Michelle Tea Valencia *DNA Hymn* is a double helix of creation and re creation naming the hard price and tender pleasures of inheritance This book is a gorgeous rich song of restraints and bonds attraction and repulsion and truths that are elemental in a voice as lovely on the page as it is to the ears Daphne Gottlieb *Kissing Dead Girls* Every poet teaches us what a poem can be Annah Anti Palindrome shows us how all small things are a testament to survival A stained tooth offers gritty sagacity A thistle growing in the compost pile foreshadows tremendous change A stray eyelash makes an overture of longing Only a deft and daring poet can connect so many incisive details to a much larger narrative of survival By the end of *DNA Hymn* the amassing of small things transforms trauma into undeniable wisdom For those of you who learn like I do through poetry be thankful for Annah Anti Palindrome s lessons Amber Dawn *How Poetry Saved My Life* A Hustler s Memoir In her long awaited debut collection *DNA Hymn* Annah Anti Palindrome panned for gold and she found it working class rural femme survivor gold unearthed by the brilliant hard femme poetic labor of its creator This book is an essential weapon in the work we do to defy and transform all of our best and most crucial inheritances Adaptogen magic bursting out of its mullein morphine blood and honey laden soil hitchhiking home to a queer land off the map Leah Lakshmi Piepzna Samarasinha *Dirty River* Sometimes the act of reading can save you from yourself Reading Annah Anti Palindrome s *DNA Hymn* did just that for me I began to read with a hope of forgetting yet arrived at a place of remembering a place that can only be found in a book on the page and in that space in between I will always remember these words Truong Tran *Dust and Conscience* *DNA Hymn* does not hesitate this debut collection is the hard swallowed keystone in a larger history that is as deeply painful as it is

stunning as much archive as it is mythology as entrenched in epigenetics as it is in etymology Each poem insists on our attention on our surrender we would be fools to turn away from such generosity Few poets can play with language so deftly still make us feel the weight of life or death in each word Let this book saw you open keep you from inheriting your own hurt

Meg Day Last Psalm at Sea Level [The thousand best poems in the world, selected and arranged by E.W. Cole \(E. Hope\).](#)
Edward William Cole, Ernest Hope (author of Our lodger), 1891 **Dancing DNA** Rick Ellsmore, 2023-08-07 In this collection of 120 poems what Rick Ellsmore calls autobiographical poetry is the common journey all of us share about coming to terms with ourselves It s a reflection of his journey toward finding the courage to truly accept and love himself and discovering that his real name is RLove That in fact we are all love It is hope joy pain and fear that make up the foundation calling us into beauty it s within this holy place that we are welcomed into the intimacy of love This is Dancing DNA *The Fireside Encyclopædia of Poetry* Henry Troth Coates, 1878 **A Complete Word and Phrase Concordance to the Poems and Songs of Robert Burns** J. B. Reid, 1889 *Mitochondrial Night* Ed Bok Lee, 2019-03-05 Taking mitochondrial DNA as his guide Lee explores familial and national legacies and their persistence across shifting boundaries and the erosions of time In these poems the trait of an ancestor appears in the face of a newborn and in her cry generations of women s voices echo Stories both benign and traumatic travel as lore and DNA Using lush exact imagery whether about the corner bar or a hilltop in Korea Lee is a careful observer tracking and documenting the way that seemingly small moments can lead to larger insights From *Mitochondrial Night* We re drumming he explained in the tradition of shamans so the ancestors won t be so lonely Because spirits need us more than we need them And for hours they ll listen to anyone **The Poems of William Telford** William Telford, 1887 *"The" Household Book of Poetry* Charles A. Dana, 1880 **Wayside Flowers: Being Poems and Songs. [With a Plate.]** Alexander Laing (Poet.), 1878 **The Very Next New Thing** Gini Graham Scott JD, Ph.D, 2010-12-08 New breakthroughs in society science technology and business keep upending our lives This fascinating collection of articles explains how our world is constantly evolving and predicts why your life may be transformed next The pace of change in the world has accelerated dramatically to the point where a concerted awareness and continual effort are required to keep up As modern technology continually brings new developments throughout society at an ever increasing rate we need to understand the advances that are reshaping our world in order to better adjust to these coming changes and in some cases profit from them In *The Very Next New Thing Commentaries on the Latest Developments That Will Be Changing Your Life* acclaimed author Gini Graham Scott has assembled a comprehensive collection of articles that showcases the latest developments and discoveries in science technology health and medicine along with the latest trends in everyday lifestyles and popular culture She also explains the beneficial use of novel technologies describes the creation of new products and services and discusses how these changes could possibly revolutionize our lives in the 21st century *New Paradigm Shifts in Literature through Poetry's Transcendence of Boundaries* Yasser K. R. Aman, 2025-03-05 This book proves

that when science and literature especially poetry enact and interact with each other transdisciplinary fields are created and new knowledge building practices are produced The discussions of interconnections between poetry on the one hand and physics biology biochemistry and pharmacology on the other hand stress that common ground can be found among diverse disciplines and transdisciplinary solutions can be offered to wicked problems The relation between science and transdisciplinarity and other knowledge systems including arts and literature should be supported Novel thinking mixing and merging disciplines creating a third space and realizing new findings should relate academy to society Therefore researchers and transdisciplinarians should focus on the power that can reshape the world transcending traditional academic confines Raising questions that can lead to deeply philosophical and scientific disputes develops solutions for wicked problems and creates an ongoing encounter on all solutions There should be a remapping of societal landscape so that transdisciplinarity yields fruitful results and leaves a formative impact on every aspect of life
