

DO CATS HAVE ESP?

JEANE DIXON

Do cats have extrasensory perception? "Absolutely," says Jeane Dixon, the world famous seer whose own cat, Mike the Magicat, "talked" to children, predicted the future, and prowled the grounds of the White House to the delight of its occupants.

In this fascinating book, a labor of love, Jeane Dixon tells of amazing "homing" cats, each of which, with its own unaccountable built-in ESP, walked hundreds of miles through unknown country to the one house and the one family in the world it was looking for. She relates stories, all fully authenticated, of cats who warned their families of danger and, in many cases, saved lives. She discusses the psychic cat in history and describes, too, the astonishing findings of scientists at the Parapsychology Laboratory at Duke University whose investigations, over more than twenty years, confirmed that cats do have extrasensory perception.

Jeane Dixon also confides her own secrets of communicating with cats, and tells you how you can, too. Her perceptive Cat Horoscopes, published for the first time in this book, will surely help you to better understand and appreciate the cat in your life.
