Raymond Everygirl's Magazine ... Rowe Wright, C Francis Loomis, Marta K. Sironen, 1922 Young Investigators Judy Harris Helm, Lilian G. Katz, Rebecca Wilson, 2023 Young Investigators has been expanded to guide today's teachers through the process of conducting meaningful investigations with young children. This fourth edition of the bestseller begins with a new chapter How Children Really Learn which summarizes insights from mind-brain education research showing how experiences firmly rooted in children's curiosity and interest build intellectual capacity. The book then introduces the Project Approach with step-by-step guidance for incorporating child initiation and direction into curriculum while simultaneously addressing content standards. A new focus on critical Teacher Decision Points uses fresh from the classroom examples to show how teachers think through project work. The emphasis on STEM experiences has been expanded to include STEAM through a new chapter The Role of Project Work in the Arts. This book makes project-based learning possible with the youngest children, toddlers through 2nd grade, who are not yet proficient in reading and writing but capable of deep focused thinking. Throughout, readers empathize with teachers' concerns, witness how they find solutions to challenges, and feel the excitement of children during project work. Young Investigators is appropriate for teachers new to using the Project Approach as well as for those who already have experience. Book Features: Examples of projects from child care centers and preschool, K-2, and special education classrooms; Instructions for incorporating standards and STEAM skills into project work; A variety of experiences to help children connect to the natural world; Toddler projects that reflect knowledge from recent mind-brain research; Tools for integrating required curriculum goals and for assessing achievement; A Teacher Project Planning Journal that leads teachers through the major decision points of project work; Full-color photographs of children engaged with projects. In a world where the mate bond dictates destiny, what happens when a blind princess dares to defy it? Born into a royal wolf pack, Lux Hale seems to have everything except sight. As a blind heroine navigating power and expectations, she fears the one thing all werewolves dream of: the mate bond. What if her fated mate only sees her title or disability? Silas, her childhood best friend and a protective alpha male in the making, has always been there, training her, grounding her, loving her in silence. As her eighteenth birthday nears, Lux's fears intensify, and a sudden attack forces feelings to surface. In a world of gemstone wolves, political duty, and paranormal threats, can Lux choose her own future? Or will fate tear her away from the one she trusts most? Perfect for fans of fated mate romance, best friends to lovers, and royal wolf pack stories with a twist, this emotionally rich tale of resilience and love will leave you breathless.
