Doctor From Lhasa:

Doctor from Lhasa T. Rampa, 2014-05-20 New Saucerian is proud to reissue the original version of T Lobsang Rampa's **Doctor From Lhasa** which was first published by Gray Barker in 1959 and includes an introduction by him. This was the first book by Rampa ever published in the United States. After it was published a very heated controversy arose which is still continuing. Rampa's contention that a Tibetan lama was writing through him and had fully occupied his body was not one to which many Western readers were likely to give credence. Many of them however were confounded by Rampa's obvious mastery of the subject opening wide a door on a fascinating and little known part of the world despite his having no record of previous literary ability. No one was able to disprove his story. Whatever the truth of the matter may be it is right that **Doctor From Lhasa** be made available to the general public once again. It stands on its own merit and is highly enjoyable. On the larger more fundamental issues it raises every reader must come to a personal decision. It is possible that this book may be the absolute truth yet another product of the incredible powers of the holy men of the Himalayas who are said to have projected their reincarnations into the hilly areas of America to avoid the holocaust brought by the Chinese to Tibet. Could we as a nation be ignoring one of the greatest gifts we have ever received?

Doctor from Lhasa T. Lobsang Rampa, 1990
UNKNOWN TO THE WESTERN WORLD THE TIBETAN LAMA UNLEASHES HIS MYSTICAL POWERS At the age of seven the Day of Prophecy arrived and the court astrologers pronounced their findings. It was proclaimed that T Lobsang Rampa was to enter the lamasery to be trained as a clairvoyant and as a healer. Many predictions were made about his life including the fact that his work would be heralded around the world. While still very young the author's Third Eye was opened increasing his mystical powers as well as his ability to view the human aura and to read the thoughts of others. This volume part of an extensive series discusses karma the other side of death the silver cord the seership crystal power ghosts as well as astral projection. This book is highly recommended for students walking the Spiritual Path in search of Enlightenment.

Required reading for students searching for a connection between medical training and social justice. Timothy Holtz's intimate recounting of a year spent serving Tibetan refugees in India describes his struggles with being unable as one young physician with only a year to spend to fix the many wrongs he witnessed. Holtz concludes that practicing good medicine whether in a modern city or an impoverished refugee community is far more complex than opening up a magic bag and handing out its contents. Although Holtz may not be aware of it his memoir is a testament to the fact that he did in fact learn to practice good medicine and he has been at it ever since. His year in Little Lhasa led Holtz to deepen his understanding not only of clinical medicine but of the social roots of disease and of the indivisibility of health and human rights broadly conceived. Students and practitioners alike will find this book

inspiring Paul E Farmer Presley Professor Harvard Medical School and Co founder Partners in Health Timothy Holtz s account is no romance about the joys of practicing medicine among Tibetan exiles in northern India It is rather about people s suffering from diseases that should easily be prevented a doctor s efforts to provide good care without the resources he should have and a community s struggles to cope with the consequences of torture Even more important for the practice of medicine it is a story of how a doctor s duty to take care of patients is quite inseparable from seeking to protect their human rights Len Rubenstein Executive Director Physicians for Human Rights Open this book to find a wonderful story about a transformative journey for a young physician Timothy Holtz went to India with a purpose to help Tibetan refugees in their struggle for a better life and better health Little did he know how much his year working in a small hospital with few resources would change the trajectory of his life Filled with stories that are both compassionate and humbling it reminds us all that changing the world happens one person at a time Zorba Paster Professor of Family Medicine University of Wisconsin School of Medicine and Public Health and Author of *The Longevity Code Your Personal Prescription for a Longer Sweeter Life* In this warm and sensitive memoir Timothy Holtz portrays the challenges confronting the Tibetan exile community in Dharamsala as it struggles to preserve its culture and traditions In recounting heartwarming stories of illness and healing Holtz also reveals his own personal path of growth and discovery as a physician The episodes he tells are sobering but also inspiring such as fighting drug resistant tuberculosis in newly arrived refugees and assisting nuns who survived torture in their native Tibet only to face the hardships of an unfamiliar country I recommend this book for anyone interested in better understanding the lives of Tibetans in exile as they fight to survive and to safeguard their traditional culture and human dignity Geshe Lobsang Tenzin Negi Director Emory Tibet Partnership and Spiritual Director Drepung Loseling Monastery Inc
