## **Doctors Are Dangerous:**

*Doctors Are More Harmful Than Germs* Harvey Bigelsen, M.D.,2011-03-15 Most people would consider a knife wound to the stomach a serious health risk but a similar scalpel wound in an operating room is often shrugged off In *Doctors Are More Harmful Than Germs* Dr Harvey Bigelsen explains how today s medical doctors overprescribe surgery and ignore its long term health implications Any invasive medical procedure he argues including colonoscopies and root canals creates inflammation in the body leading to serious and long lasting health problems Inflammation according to Dr Bigelsen is the real cause of all chronic disease persistent or long lasting illness Noting that Western medicine has yet to cure a single chronic disease Bigelsen points to a new paradigm one that treats each patient as an individual rather than as a set of symptoms avoids further damage to the body through surgery and looks for the root cause of chronic disease in past damage done to the patient s body whether caused by a bad fall or a scalpel Provocatively written and radical in its approach *Doctors Are More Harmful Than Germs* challenges readers to rethink everything they believe about illness and how to treat it

**The Ethics of Medical Involvement in Capital Punishment** Joseph B.R. Gaie,2006-04-11 The morality of capital punishment has been debated for a long time This however has 1 not resulted in the settlement of the question either way Philosophers are still divided In this work I am not addressing the morality of capital punishment per se My question is different but related It is this Whether or not capital punishment is morally right is it moral or immoral for medical doctors to be involved in the practice To deal with this question I start off in Chapter One delineating the sort of involvement the medical associations consider to be morally problematic for medical doctors in capital punishment They make a distinction between what they call 2 medicalisation of and involvement in capital punishment and argue that there is a moral distinction between the two Whilst it is morally acceptable for doctors to be involved in capital punishment according to the medical associations it is immoral to medicalise the practice I clarify this position and show what moral issues arise I then suggest that there should not be a distinction between the two The medical associations argue that the medicalisation of capital punishment especially the use by medical doctors of lethal injection to execute condemned prisoners is immoral and therefore should be prohibited because it involves doctors in doing what is against the aims of medicine Journal of Practical Medicine ,1896 *Selected Writings of Elbert Hubbard* Elbert Hubbard,1922 **Chambers's Journal of Popular Literature, Science and Arts** ,1900 **Pamphlets** Elbert Hubbard,1922 **The North American Journal of Homeopathy** ,1890 Asian Medical Systems Charles M.
