The Documentation of the European Communities Ian Thomson,1991 The Documentation of the European Communities Commission of the European Communities. Library,Ian Thomson,1990 A Guide to the Official Publications of the European Communities John Jeffries,1981 Publications of the European Communities Commission general publications Commission non statistical publications Eurostat publications of the statistical office of the European Communities Council of ministers European parliament Court of justice of the European Communities Other bodies Bibliographic aids Addresses to which orders for publications should be sent European documentation centres and depository libraries Further reading on the European Communities **Guide to European Communities Documentation in the University Library** University of Glasgow. Library,1978 *The Pocket Guide to the EU Directives for Clinical Research* Julie Meeson,2009 *British Librarianship and Information Work 1991-2000* J. H. Bowman,2006-01-01 This important reference volume covers developments in almost every aspect of British library and information work during the ten year period 1991 2000 The book provides a comprehensive record of what took place in library and information management during a decade of considerable change and challenges *BIBLIO - FLASH Nr.33 1990. The Documentation of the European Communities: A Guide* ,1989 Regulatory Toxicology in the European Union Tim Marrs, Kevin Woodward,2018-02-21 Consumer and environmental protection depend on the careful regulation of all classes of chemicals Toxicology is the key science used to evaluate safety and so underpins regulatory decisions on chemicals With the growing body of EU legislation involved in chemical regulation there is a concomitant need to understand the toxicological principles underlying safety assessments Regulatory Toxicology in the European Union is the first book to cover regulatory toxicology specifically in Europe It addresses the need for a wider understanding of the principles of regulatory toxicology and their application and presents the relationship between toxicology and legislative processes in regulating chemical commodities across Europe This title has a broad scope covering historical and current chemical regulation in Europe the role of European agencies and institutions and also the use of toxicology data for important classes of chemicals including human and veterinary medicines animal feed and food additives biocides pesticides and nanomaterials This book is therefore extremely pertinent and timely in the toxicology field at present This book is an essential reference for regulatory authorities industrialists academics undergraduates and postgraduates working within safety and hazards toxicology the biological sciences and the medicinal and pharmaceutical sciences across the European Union **Butterworths Expert Guide to the European Union** Jörg Monar,1996 Written by the leading experts in these fields this new dictionary style text offers the reader concise authoritative up to date definitions of basic and advanced concepts used in European Community studies and European law **Uniformity of Customs Administration in the European Union** Kathrin Limbach,2015-11-19 Uniform customs administration is of great importance for the EU and the competitiveness of EU businesses in global trade However the EU s so called executive federalism raises the potential for

the non uniform application of EU customs law This problem has already arisen in the European Communities Selected Customs Matters WTO dispute settlement Therefore the central research question of this book concerns the challenge presented to executive federalism in the EU Customs Union by the WTO It also examines those safeguard measures for uniform customs administration which are in operation Valuable empirical analysis of the decision making procedures and practices of the national customs authorities allows for the fullest understanding of the operation of the customs administration An important feature of the exploration is its analysis of the reform of EU customs law and of the effectiveness of the European Union s strategies to enhance uniform customs administration That analysis helps to identify potential weak points in the decentralised administration of EU customs law and suggests ways in which it might be improved Scholarly rigorous and timely this important study will be required reading for all scholars of EU customs law

Public Ethics at the European Commission Andreea Nastase,2016-09-13 Since the early 2000s reforms in the area of public ethics have represented a significant part in the European Commission s efforts to improve its internal governance and democratic legitimacy and address the crisis of public confidence in European integration This book comprises a study of ethics and public integrity issues in the administrative services of the European Commission The author traces the reforms implemented in this area since the early 2000s and asks whether and how they have shaped Commission officials thinking about appropriate behaviour in public office Based on in depth interviews and the use of vignettes the book reveals that the influence of ethics regulations is subtle and full of contradictions while a heightened awareness and discussion of ethical issues exists in the Commission nowadays the topic is nonetheless often considered as a matter of common sense This book breaks new ground as the first analysis of ethics at the level of individual EU officials It advances a new angle to the study of the Commission as an administrative actor and sheds light on an important but under researched component of its efforts to address criticism concerning democratic legitimacy In the field of administrative ethics the book tackles research gaps regarding the practice and impact of ethics policies within public organizations This text will be of key interest to scholars students and practitioners of EU Studies Politics institutional reform administrative ethics and more broadly European governance and public policy

Defence Industrial Cooperation in the European Union Daniel Fiott,2019-03-28 This book provides an empirical understanding of how EU level defence industrial cooperation functions in practice Using the Liberal Intergovernmental theoretical model the book argues that while national economic preferences are an essential factor of government interests they only explain part of the dynamic that leads to the development of defence industrial policy at EU level Moving beyond a simple adumbration of economic preferences it shows how the EU s institutional framework and corpus of law are used by governments to reaffirm their position as the ultimate arbiter and promoter of national economic preferences in the defence industrial sector To this end the work asks why and

how EU member state governments European defence firms and EU institutions developed EU level defence industrial policy between 2003 and 2009 The book also analyses significant policy developments including the establishment of a European Defence Agency and two EU Directives on equipment transfers and defence procurement This book will be of much interest to students of EU policy defence studies security studies and International Relations in general
