

Save water and money with the Smart Water Meter.

A smart water meter measures the water used on your premises and records the reading automatically. With a *MySmartWaterMeter* account, you can go online and easily review your daily or even hourly water data to better understand your usage patterns. By adjusting your water usage, you can save both water and money.

How it works

Smart water meters capture meter readings which are then transmitted wirelessly to nearby base stations.

The base stations collect the meter readings and send them to PUB's servers for processing.

PUB makes the water usage data available to you via *MySmartWaterMeter*, which can be accessed online via your laptop, tablet or mobile phone.

You can monitor your water usage, set monthly goals and receive alerts for suspected leaks with *MySmartWaterMeter* account.
