**Moving Beyond Duality** Dorothy I. Riddle,2015-12-11 Are you free of prejudice Less than five percent of us are because of the pervasiveness of dualistic us them thinking In Moving Beyond Duality Dr Riddle draws on research from quantum physics the life sciences and the social sciences to describe our actual dynamic energetic reality and expose the unconscious habits that hold the harmful illusion of duality in place She shows how we depersonalize ourselves and others including nonhumans through bigotry dismissiveness stereotyping and objectification Drawing on the latest research in neuroscience she clarifies that good intentions are not enough to counter embedded habits And she provides a series of practical strategies and exercises to uncover depersonalizing habits and create lasting change Moving Beyond Duality reminds us that it is relationship and connectedness that define us whether by their absence or their richness We are all human and nonhuman alike part of the cosmic sea of energy that is the One Life cherished in our diversity

**Beyond Duality** Ayşegül Cengiz,Eyüp Kurt,2023-11-08 Beyond Duality grasping life allows us to perceive our thoughts emotions and experiences not just as two opposing poles but within a broader perspective as a unified whole Confining any topic to a single right or wrong can hinder a deeper understanding Embracing different perspectives can help us understand the experiences and thoughts of others When we delve deeper into our own thoughts and feelings we can develop greater freedom and holistic understanding This can open the doors to a harmonious and fulfilling life because life is in reality multifaceted and there is often not a single correct answer

**Beyond Duality and Polarization** Paul Koziey,2012-07-13 Beyond Duality and Polarization explores an experience based learning model the Phenomenal Patterning approach for personal transformation Rather than traditional prescriptive learning methods of personal discovery help us understand how the human mind actually functions Dr Koziey introduces two modern Zen skills watching and catharsis to increase self awareness This frees us from habitual patterns we learned in childhood We identify the patterns of our own thinking and behaving and see that many of the problems we face are self created Repressions are revealed in the shadow psyche and we are able to dissolve our negativity The overriding message is that when we stop fighting life starts flowing again

Beyond Duality Eyup Kurt,2023-10-12 Beyond Duality grasping life allows us to perceive our thoughts emotions and experiences not just as two opposing poles but within a broader perspective as a unified whole Confining any topic to a single right or wrong can hinder a deeper understanding Embracing different perspectives can help us understand the experiences and thoughts of others When we delve deeper into our own thoughts and feelings we can develop greater freedom and holistic understanding This
