Beyond Nihilism:

Beyond Nihilism Nimrod Aloni, 1991 **Beyond Nihilism** Chiara Di Marco, 2016-06-27T00:00:00+02:00 Nihilism and or community The European Question The gift of the in common Touching on different themes and authors the papers presented here probe the prolificness that the terms sacred and community could have if subtracted from the game of reactive nihilism in checking the violence of the diverse political and religious ideologies that the West administers An escape opens in the implementation of critical thinking and ethical behaviour that involves the sacrifice of thought and of the thinking subject The disputing of all the semantics of the logic of the recognition and the convenience that regulate life in advanced democracies *Beyond Nihilism* Ofelia Schutte, 1986 *Beyond Nihilism* Nimrod Aloni, 1991-11 In this work the author presents Nietzsche as a counter nihilistic philosopher educator who aimed very much like Plato and Rousseau to set forth a healing education for western man in a characteristically decadent era The principal pedagogical or edifying dimension of his philosophy it is argued consists of a redefinition of the educational aim of modern humanity formulated in medical and cultural terms as the recovery of health and worth The work considers Nietzsche's investigations of noble and nihilistic forms of life as well as his doctrines of the Dionysian the Will to Power and the Overman as aiming to establish a new wisdom delineating the conditions necessary for the evaluation enhancement and prosperity of man A useful book for courses in philosophy philosophy of education history of education and ethics *Beyond Nihilism* Dominic Kelly, 2022-08-25 Identifies the turn in Martin Heidegger's thought as occurring due to a change in the way he thought and his departure from a purely philosophical to a poetic way of thinking **Beyond Nihilism** Michael Polanyi, 1960 **Beyond Nihilism?** Chris Bremmers, Andrew Smith, Jean-Pierre Wils, 2018-08-16 **Beyond Nihilism** Alexander Shaumyan, 1988 **The Comprehensive Legacy of Michael Polanyi** Walter B. Gulick, Paul Lewis, 2025-12-11 Michael Polanyi 1891 1976 was a curious man driven to understand most everything that came to his attention His work experience and exemplary insights took him from medicine to physical chemistry and ultimately to the social sciences and philosophy His latter move was made in response to such disasters as the world wars the depression and the rise of totalitarian regimes The creative approach he employed for scientific discovery greatly influenced his subsequent work Because the social and cultural context has changed in the 75 years since his death the articles in this book seek to identify and build upon his broad based insights in ways that are fitting today Thus the book is divided into a section that in Polanyian terms dwells in and interprets his thought and a section that while rooted in his thought breaks out of it to reflect on its rich possibilities for further development **Beyond Nihilism**, 2016 **The Question of Sacrifice** Dennis King Keenan, 2005-06-14 In this concentrated and detailed look at questions surrounding the act of sacrifice Dennis King Keenan discusses both the role and the meaning of sacrifice in our lives Building on recent philosophical discussions on the gift and transcendence Keenan covers new ground with this exploration of the religious psychological and ethical issues that sacrifice entails According to Keenan sacrifice is

paradoxically called to sacrifice itself But what does this necessary yet impossible condition mean for living an ethical life Along the way to an answer Keenan considers the views of Hegel Kierkegaard Nietzsche Heidegger Bataille Lacan Levinas Blanchot Irigaray Derrida Kristeva Nancy and Zizek This thoughtful and provocative work affords a sophisticated philosophical treatment of the question of sacrifice

Beyond Beauty Federico Vercellone,2017-01-01 Traces the decline of beauty as an ideal from early German romanticism to the twentieth century The American abstract expressionist painter Barnett Newman famously declared in 1948 that the impulse of modern art is to destroy beauty Not long after that Andy Warhol was reconciling the world of art with the world of everyday life painting soup cans and soda bottles In this book Federico Vercellone provides an account of the decline of beauty as a Platonic ideal from early German Romanticism to the twentieth century He traces this intellectual trajectory from Goethe Dilthey and Nietzsche through modernism and the avant garde movement to the work of Adorno and Heidegger Rather than the death or destruction of beauty Vercellone argues instead that beauty in the twentieth century came back to live in reality and everyday life He suggests this is a new edition of the classical ideal rather than an abandonment of it and further makes the case for the ecological significance of this orientation and outlook

Beyond Nihilism Susan Ray,2003 The ideas underlying Benn s Ausdruckswelt not only anticipate and parallel many of the assumptions now current in recent trends in literary criticism they also disclose their ultimate limitations Benn s poetics were founded on the intellectual crises of the early years of the twentieth century Following Nietzschean leads Benn sought to achieve in his person and his work a return to a primitive archetypal mode of perception which he felt would restore a purer more natural mentality to modern man whom he portrayed as being far ahead of his syntax By focusing on Benn s early Expressionist prose and what this study calls his fictive self the author traces the relationship between Benn s Weltanschauung and later critical theory Building upon the latest scholarship she analyses Benn s poetics as precursor of certain postmodernist ideas concerning language meaning and polysemy aesthetics personal identity authorial intention versus reader reception intertextuality and the role of art in society By paying specific attention to the concept of the autonomous self and its relation to language this study demonstrates that Gottfried Benn s aesthetic theories do not represent the end of German Expressionism but rather the beginning of the present post modernist period
