## **Beyond Chinatown:**

**Beyond Chinatown** Mette Thunø, 2007 Annotation The rough camps and shantytowns built by nineteenth and early twentieth century Chinese immigrants to the West eventually became settled Chinatowns across the globe Because it opens a new approach to the study of recent Chinese migration this volume will be of vital interest in the fields of both general and Chinese migration studies But bringing to life as it does the momentous changes now sweeping the Chinese world in all parts of the globe it will also attract a far wider readership *Beyond Chinatown* Steven P. Erie, Harold David Brackman, 2006 Examines the history of the Metropolitan Water District of Southern California from its obscure 1920s era origins through the Colorado River Aqueduct and State Water Projects to today's daunting mission of drought management water quality environmental stewardship and post 9 11 supply security Simultaneous **Beyond Chinatown** Steven P. Erie, 2006 This is a study of the Metropolitan Water District of Southern California and its unsung roles in this semi desert region's improbable growth in resolving water conflicts and in devising pioneering formulas to meet 21st century water challenges Beyond Literary Chinatown Jeffrey F. L. Partridge, 2007 American Book Award Winner Before Columbus Foundation The phenomenon of literary Chinatown the ghettoization of Chinese American literature was produced by the same dynamics of race and representation that ghettoized the Chinese American community into literal Chinatowns In a 1982 response to reviews of *Woman Warrior* Maxine Hong Kingston pinpointed the crux of the matter How dare they make their ignorance our inscrutability Jeffrey F L Partridge examines the dynamic relationship between reader expectations of Chinese American literature and the challenges to these expectations posed by recent Chinese American texts challenges that push our understanding of a multicultural society to new horizons Partridge builds on the concept of a reading horizon a set of expectations and assumptions that a reader brings to a text to explore the crucial interplay between reader author and text Arguing that authors like Kingston Li Young Lee Gish Jen Shawn Wong Shirley Geok lin Lim and David Wong Louie are aware of their readers horizons and write to challenge those assumptions Partridge demonstrates how their writings function as a potent medium of cultural transformation With attentive readings not only of literary texts but also of book reviews and publishers marketing materials Partridge enables us to chart and to understand the changes in Chinese American literature and its reception in the past fifty years In doing so he threads a new path forward in the discussion of race and ethnicity in America one that encompasses the historical valence of multiculturalism and the cross fertilizing perspectives of postmodern hybridity theory while remaining cognizant of the persistence of racist and racialized thinking in contemporary American society *Beyond Literary Chinatown* demonstrates how Chinese American literature has come to negotiate the tensions between the expression of ethnic identity and a resistance to racialization This important contribution to the growing body of critical works on Asian American literature will be of interest to reception theorists and scholars of American ethnic studies and American literature Beyond Chinatown Steven P. Erie, 2022 As urban growth outstrips water supplies how can the

global challenge of providing liquid gold be met Mixing history and policy analysis Steven Erie tells the compelling story of the Metropolitan Water District of Southern California MWD one of the world s largest and most important public water agencies and its role in building the world s 8th largest economy in a semi desert No tawdry tale of secret backroom conspiracies as depicted in the famed film noir Chinatown this fresh telling concerns an unheralded regional institution its entrepreneurial public leadership and pioneering policymaking Using untapped primary sources the author re examines this great regional experiment from its obscure 1920s era origins through the Colorado River Aqueduct and State Water Projects to today s daunting mission of drought management water quality environmental stewardship and post 9 11 supply security A key focus is MWD s navigation of recent epic water battles San Diego s combative quest for water independence from MWD and L A lingering conflicts over the Colorado River and northern California s fragile Bay Delta ecosystem and the myriad challenges posed by water markets privatization and water transfers Facing unprecedented challenges MWD is devising innovative formulas to sustain this improbable desert civilization Beyond Chinatown concludes by considering MWD s Integrated Resources Plan as a global model for water resources planning and management water supply diversification and reliability affordability and environmental sustainability Chinatown s seductive mythologies have obscured MWD s authentic instructive history and lessons Praise for Steve Erie s previous book Globalizing L A This book is a must read for anyone interested in the politics of Western cities the politics of urban development and especially the future politics of cities that are likely to be contenders in the increasingly competitive arena of global trade Erie s analysis will forever direct us to look first at certain public agencies to begin to understand larger patterns of economic growth in any metropolitan area Journal of Urban Affairs A fascinating history of the Los Angeles region s great assets and the forces that drove their development One hundred years ago it was improbable that the Los Angeles region would become the 10th largest economy in the world In Globalizing L A Erie explains how that happened and then fingers crossed offers lessons on how California s largest and most diverse city and region can keep playing a leading role Los Angeles Times Referencing an impressive body of recent academic research Erie argues that world class seaport and airport facilities confer substantial economic advantages and more facilitating links between local businesses and the global economy The Sacramento Bee Erie has built a potent political economy of urban development that recognizes the crucial role of the public sector in mediating globalizing processes and this is a valuable lesson for academics dockworkers community developers and environmental activists alike Economic Geography [In the Face of Diversity](#) Nathan D. Gardner Molina,2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If

so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities *Affective Geographies and Narratives of Chinese Diaspora* Melody Yunzi Li, Robert T. Tally Jr., 2022-09-21 In various ways Chinese diasporic communities seek to connect and re connect with their homelands in literature film and visual culture The essays in *Affective Geographies and Narratives of Chinese Diaspora* examine how diasporic bodies and emotions interact with space and place as well as how theories of affect change our thinking of diaspora Questions of borders and border crossing not to mention the public and private spheres in diaspora literature and film raise further questions about mapping and spatial representation and the affective and geographical significance of the push and pull movement in diasporic communities The unique experience is represented differently by different authors across texts and media In an age of globalization in the Chinese Century the spatial representation and cultural experiences of mobility displacement settlement and hybridity become all the more urgent The essays in this volume respond to this urgency and they help to frame the study of Chinese diaspora and culture today *Land of Smoke and Mirrors* Vincent Brook, 2013-01-22 Unlike the more forthrightly mythic origins of other urban centers think Rome via Romulus and Remus or Mexico City via the god Huitzilopochtli Los Angeles emerged from a smoke and mirrors process that is simultaneously literal and figurative real and imagined material and metaphorical physical and textual Through penetrating analysis and personal engagement Vincent Brook uncovers the many portraits of this ever enticing ever ambivalent and increasingly multicultural megalopolis Divided into sections that probe Los Angeles s checkered history and reflect on Hollywood s own self reflections the book shows how the city despite considerable remaining challenges is finally blowing away some of the smoke of its not always proud past and rhetorically adjusting its rear view mirrors Part I is a review of the city s history through the early 1900s focusing on the seminal 1884 novel *Ramona* and its

immediate effect but also exploring its ongoing impact through interviews with present day Tongva Indians attendance at the 88th annual Ramona pageant and analysis of its feature film adaptations Brook deals with Hollywood as geographical site film production center and frame of mind in Part II He charts the events leading up to Hollywood's emergence as the world's movie capital and explores subsequent developments of the film industry from its golden age through the so called New Hollywood citing such self reflexive films as *Sunset Blvd* *Singin in the Rain* and *The Truman Show* Part III considers LA noir a subset of film noir that emerged alongside the classical noir cycle in the 1940s and 1950s and continues today The city's status as a privileged noir site is analyzed in relation to its history and through discussions of such key LA noir novels and films as *Double Indemnity* *Chinatown* and *Crash* In Part IV Brook examines multicultural Los Angeles Using media texts as signposts he maps the history and contemporary situation of the city's major ethno racial and other minority groups looking at such films as *Mi Familia* *Latinos* *Boyz n the Hood* *African Americans* *Charlotte* *Sometimes* *Asians* *Falling Down* *Whites* and *The Kids Are All Right* LGBT

**Ethnic Landscapes of America** John A. Cross, 2017-06-19 This volume provides a comprehensive catalog of how various ethnic groups in the United States of America have differently shaped their cultural landscape Author John Cross links an overview of the spatial distributions of many of the ethnic populations of the United States with highly detailed discussions of specific local cultural

landscapes associated with various ethnic groups This book provides coverage of several ethnic groups that were omitted from previous literature including Italian Americans Chinese Americans Japanese Americans and Arab Americans plus several smaller European ethnic populations The book is organized to provide an overview of each of the substantive ethnic landscapes in the United States Between its introduction and conclusion which looks towards the future the chapters on the various ethnic landscapes are arranged roughly in chronological order such that the timing of the earliest significant surviving landscape contribution determines the order the groups will be viewed Within each chapter the contemporary and historical spatial distribution of the ethnic groups are described the historical geography of the group s settlement is reviewed and the salient aspects of material culture that characterize or distinguish the group s ethnic landscape are discussed

*Ethnic Landscapes of America* is designed for use in the classroom as a textbook or as a reader in a North American regional course or a cultural geography course This volume also can function as a detailed summary reference that should be of interest to geographers historians ethnic scholars other social scientists and the educated public who wish to understand the visible elements of material culture that various ethnic populations have created on the landscape

*Beyond the Green Myth* Peter G. Sercombe, Bernard Sellato, 2007 Borneo with its tales of White Rajahs and tribes of headhunters has long excited the Western imagination Today however there is another green imagination at work Mention of the island is more likely to evoke images of tropical deforestation and concern about the cruel dispossession and displacement of indigenous peoples who once lived in relative harmony with their environment It is perhaps not surprising then that most books dealing with the nomadic hunter gatherers of Borneo have principally been pictorial studies There is indeed a dearth of scholarship regarding these peoples a situation that this first ever comprehensive review of nomadic groups in the Borneo rain forest aims to rectify Presenting a wealth of new research contributed by an international team of scholars the volume covers all of those parts of Borneo where nomads called Penan Punan or by various other names are or were known to exist and provides a comparative historical ecological study of these groups The study is primarily concerned with issues of modernization including the monetary economy formalized institutions centralized power structures contractual relationships and extraction activities and development policies The impact of these policies is analyzed with special regard to the natural environment inhabited by these small scale societies as well as the use of its resources The book has no stiff theoretical orientation but informs ongoing debates about changing forms of ethnicity relations between minorities and the state minorities rights and survival native discourse the sustainability of tropical forest use and the neo romantic environmentalist myth of so called wise traditional peoples
