Beyond Desert Storm:

Beyond Desert Storm Norman W. Mathers,1993-03-01 Mathers work takes readers beyond the invasion and liberation of Kuwait to a fresh look at the future The Bible predicts Ezekiel s Desert Storm is yet to come Will ours be the generation to witness a second Desert Storm followed by Armageddon Beyond Desert Storm explores this question and offers a viable view of the Middle East through the prophecies of the Bible ATS Publications **Moving the Force** Scott W. Conrad,1994

Moving the Force Scott W. Conrad,2004-10-01 Without oil no engine can run Movement is the oil that enables America s military forces to sustain an operation and nothing happens until something moves As America s military priorities are reordered the ability to move quickly sustain forces anywhere in the world and preposition equipment and materiel near likely areas of crisis is more important than ever Because of the apparent ease of movement during Desert Shield and Desert Storm however decisionmakers may in the afterglow of the Desert Storm victory be prone to misinterpret the lessons of the Gulf War and fail to address movement capabilities properly for the future A good example is a recent Congressional decision to divert funds from slated improvements to the Army s afloat pre positioning capability to the building of an amphibious assault ship The capacity to foster global stability and defend our national interests depends upon correct long range planning for transport Logistics especially mobility has long been a bill payer for combat equipment so perhaps a reappraisal is in order Lessons of the Gulf War can help reshape America s defense transportation system for the post Cold War era Commitment to a balanced and unified mobility strategy should provide the most cost effective rapidly deployable and sustainable combat capability Regional focus particularly in a multiple conflict scenario and reduced forward presence will significantly increase America s reliance on movement in the future Careful restructuring of military movement capabilities will lessen the risks of distance and time in an unstable world and contribute to the economic well being of the nation To do less might invite confrontation with adversaries willing to test the substance and purpose of our reach Persian Gulf

Beyond Desert Storm , **Beyond Guns and Steel** Dominic J. Caraccilo,2011-01-19 This work is a doctrinal examination of war termination strategy and conflict resolution as a dependent pair requiring a plan to achieve both in unison in advance of a fight The necessity of a plan for conflict resolution should be intuitively obvious for policymakers yet a survey of recent conflicts including Afghanistan and Iraq shows that not to be the case Beyond Guns and Steel A War Termination Strategy provides a practical approach to establishing a plan for war termination and conflict resolution before the bullets fly In explaining the difference between strategy and policy Colonel Dominic J Caraccilo clarifies the most important and often the most constraining element of a nation s power its resources He posits that termination strategy and conflict resolution are interdependent and need to be included in conflict plans from the outset Caraccilo s book fills a void in current strategy for the development of long term plans that bring conflicts to timely and acceptable conclusions providing a methodology that allows interagency requirements and resources for war termination to be defined allocated and employed effectively

Beyond Desert Storm Hope for the Days Ahead Revised Edition Norman Mathers, 2023-05-07 Beyond Desert Storm the well known biblical prophecy book has been revised and updated The reader will have a new understanding of God s prophetic predetermined plan for our times What is God s predetermined prophecy for Russia and China Beyond Desert Storm answers these questions and many more Bring peace stability and security to your life Christian faith and worldview Norman W Mathers Ph D Norman W Mathers B A Wilfrid Laurier M A California State University Dominguez Hills Master of Theology Dallas Theological Seminary Ph D University of Pretoria Dr Mathers teaches Philosophy Christian Evidence for Liberty University Online College of Arts and Science

Beyond Horizons David N. Spires, 1997

Beyond the Grave Floyd Vernon Chandler, 2009-10-01 What really happens to human consciousness at death How might love and immortality be related What is purgatory and do most religions teach the concept of purgatory What is spirituality Is the essence of the mystery we call God the same for the Buddhist Christian Hindu Jew and Muslim Is it more important what my religion teaches me to believe or is it more important that my religion enables me to become more loving and compassionate How might one practice a reverence for life by our food choices How do we balance work and spirituality How do we balance spirituality and social justice work In this collection of sermons and reflections Floyd Vernon Chandler suggests that there are many valid spiritual paths to Enlightenment and Holiness Understanding the mystery we call God is akin to the story of five blind men touching different parts of a huge elephant Each man s description and understanding of the elephant will vary based upon the location of his touch The importance of any religion is determined by how much our respective spiritual paths lead us to grow in love and compassion for one another and for all other forms of life on this planet The sermon and reflections found in *Beyond the Grave* Love and Immortality express a Universalist theology that all souls will eventually be reunited with the mystery we call God Inherent in this collection of writings is the belief that there is truth in all religions and that there are many valid spiritual paths No religious dogma or ideology has a monopoly on truth

Beyond Gunboat Diplomacy James O. Tubbs, 1997 Military intervention short of full scale war is not a new phenomenon as a means of pursuing national interests However with the end of the cold war military intervention has taken a new twist in the form of peace operations The U S Air Force in particular is being used as a tool of national policy in peace enforcement operations

with increasing regularity Currently the USAF is involved in the conflict in the former Yugoslavia and maintains an air presence in both Turkey and Saudi Arabia to control the Iraqi repression of its civilian population This raises a fundamental question about when and how airpower should be used as an effective coercive force in peace enforcement operations Peace enforcement is a military intervention in an on going conflict which uses military force to coerce one or more belligerents to comply with mandated restrictions The purpose of this intervention is to create the proper security conditions such that other peace efforts such as humanitarian relief and diplomatic peacemaking can help the belligerents resolve the conflict without the use of force This thesis uses PROVIDE COMFORT in northern Iraq and UNITAF UNISOM II in Somalia as case studies to examine how airpower influences peace enforcement operations Abstract **Beyond Our Time** Norman W.
