Beyond Mali:

Beyond Mali Rafael Scott,2021-02-15 I will tell you a story of two oceans One lies towards the lands of Nubia the other where the sun falls from the sky the known and the unknown Within their waters raged the blood of two brothers Djeliba Mamadou Kouyate The year is 1307 The Great Mansa of Mali has unexpectedly died and the vast empire wavers with instability It is Abubakari II who inherits the rule of Mali from his beloved father As his Mandingo warriors storm the citadel of Djenne the last obstacle in the Keita clan s complete rule of the region Abubakari reveals his childhood ambition of exploring the Great Sea of Darkness to the west Viewed as madness by some his dream severs the unity of the empire and sends the young ruler clashing with his least expected adversary his brother Based on a true story **Beyond Mali** Rafael Scott,2013-08-21 I will tell you a story of two oceans One lies towards the lands of Nubia the other where the sun falls from the sky the known and the unknown Within their waters raged the blood of two brothers Djeliba Mamadou Kouyat The year is 1307 The Great Mansa of Mali has unexpectedly died and the vast empire wavers with instability It isAbubakari II who inherits the rule of Mali from hisbeloved father As his Mandingo warriors storm the citadel of Djenn the last obstacle in the Keita clan s complete rule of the region Abubakari reveals his childhood ambition of exploring the Great Sea of Darkness to the west Viewed as madness by some his dream severs the unity of the empire and sends the young ruler clashing with his least expectedadversary his brother Based on a true story Beyond Ethnic Politics in Africa Dominika Koter,2016-10-13 Why do ethnic politics emerge in some ethnically diverse societies but not others Focusing on sub Saharan Africa Dominika Koter argues that the prevailing social structures of a country play a central role in how politicians attempt to mobilize voters In particular politicians consider the strength of local leaders such as chiefs or religious dignitaries who have historically played a crucial role in many parts of rural Africa Local leaders can change the electoral dynamics by helping politicians secure votes among people of different ethnicities Ethnic politics thus can be avoided where there are local leaders who can serve as credible electoral intermediaries between voters and politicians Koter shows that there is widespread variation in the standing of local leaders across Africa as a result of long term historical trends which has meant that politicians have mobilized voters in qualitatively different ways resulting in different levels of ethnic politics across the continent

Natopolitanism Grey Anderson,2023-08-29 Did NATO cause the crisis in Ukraine Following the Russian invasion of Ukraine the fortunes of NATO pronounced braindead only a few years prior have been miraculously revived The alliance buoyed by surging European military budgets and inflows of combat ready troops and cutting edge hardware looks forward to welcoming additional member states Originally conceived as a bulwark against the Soviet Union NATO has outlasted its ostensible foe by over three decades Its geostrategic remit is limited to the North Atlantic in name only Treaty obligations range from the Andes to the Gulf of Aden and the Khyber Pass and allied commanders now prepare for battle in the South China Sea Natopolitanism takes an in depth look at the evolution and aggrandizement of NATO since the turn of the 1990s

What purposes does NATO serve in the post Cold War world What is the balance sheet of a quarter century of alliance expansion and what part did it play in the eruption of conflict on Europe s eastern marches Contributors to the volume including John J Mearsheimer Mary Elise Sarotte Susan Watkins Wolfgang Streeck and Volodymyr Ishchenko revisit this history as it unfolded Varying in viewpoint and judgment all share a critical perspective at odds with wartime pieties

The Prosperity Agenda Nancy Soderberg, 2008-07-01 Following the devastating 2005 earthquake in Pakistan the Bush administration pledged more than 500 million for earthquake relief and sent American helicopters and soldiers to help Immediately afterward polls showed that the number of Pakistanis with a favorable opinion of the United States had doubled to more than 46 percent The Prosperity Agenda argues that this may be the best foreign policy moment of the entire Bush administration at the cost of what we spend in Iraq every day and should become a model for future action In this provocative ingenious book Soderberg and Katulis make one of the most controversial arguments that foreign policy circles have seen in years no more putting all our eggs in the basket of promoting democracy or market reforms or even diplomacy sanctions or cash handouts to faltering governments Instead they argue we should go right to the citizens of troubled nations and give them what they need most People in the Congo Iraq Pakistan and North Korea all have the same concerns and the right to vote is far from the top of the list They need freedom from war good food and shelter basic health care and the reasonable hope that tomorrow will be better It s not only the right thing to do it s likely to do more for American interests than the policies we ve been relying on for years Why have seven years of President Bush s freedom agenda failed to achieve freedom or democracy in Iraq Afghanistan or anywhere else When democracy starts to sound like a code word for advancing U S interests it backfires Latin America provides an excellent example of why freedom s march has stalled in large part due to quality of life issues A 2004 survey showed that a majority of people in Latin America would rather have a government that provided economic gains than a democracy The Prosperity Agenda embraces a new and compelling strategy for overcoming that problem and dealing with the world Giving money weapons and loans with lots of strings attached doesn t do it But handing out vaccines disaster relief and 100 laptops does Working to improve the basic lives of people will in the end help defeat terrorism increase America s leverage against its enemies weaken dictatorships and most importantly save the lives of millions

Urban Displacement and Trade in a Senegalese Market Gunvor Jónsson,2024-03-07 The Malian market at the railway terminus in Dakar was bulldozed in 2009 and following privatisation of the railway passenger services in Senegal soon ceased altogether The consequences were felt especially by women traders who had travelled the line since its inauguration making the terminus in Dakar the centre of a thriving network of traders and migrants To examine the fates of those whose livelihoods were destroyed or disrupted Gunvor J nsson spent a year with the women evicted from the terminus Urban Displacement and Trade in a Senegalese Market explores what happens at the end of urban displacement when it is all over so to speak when the dust has settled and people find themselves scattered in sometimes unfamiliar surroundings trying to pick up the pieces and create something meaningful This book argues that rupture and ensuing displacement do not produce a clean slate where identities networks and histories must be produced from scratch Traders and their markets do not simply vanish into thin air when they are evicted The book examines not only what is lost but what emerges when a dense node such as the terminus is dissolved and fragmented The ethnography of the traders reveals that the aftermath of eviction in cities may lead to diasporic forms of consciousness and identity formations Displacement whether on a local or global scale demands difficult adjustments and people s capacities to adapt to new circumstances and environments vary This book uncovers some of these different capacities and variations in traders reactions to displacement Praise for Urban Displacement and Trade in a Senegalese Market J nsson s book is a masterful study of the aftermath of displacement in a major African city Through deep ethnographic engagement the book shows how displacement is about more than leaving a place it is also about how people rebuild livelihoods and how the space left behind continues to haunt their imagination of a meaningful life H l ne Neveu Kringelbach UCL This book is an inspiring tribute to the Malian women traders of Senegal Emptied out from their old market stalls by a vainglorious development scheme they bravely regrouped to recover their livelihoods and protect their families Gunvor J nsson challenges the idea that displacement only involves refugees Instead she creatively marries studies of migration and urbanization providing fresh insights to both fields Robin Cohen University of Oxford
