Beyond The Breast Bottle Controversy:

Beyond the Breast-bottle Controversy Penny Van Esterik, 1989 *Is Breast Best?* Joan B. Wolf, 2010-12-19 Why has breastfeeding re asserted itself over the last twenty years and why are the government the scientific and medical communities and so many mothers so invested in the idea In *Is Breast Best* Joan B Wolf challenges the widespread belief that breastfeeding is medically superior to bottle feeding Despite the fact that breastfeeding has become the ultimate expression of maternal dedication Wolf writes the conviction that breastfeeding provides babies unique health benefits and that formula feeding is a risky substitute is unsubstantiated by the evidence In accessible prose Wolf argues that a public obsession with health and what she calls total motherhood has made breastfeeding a cause c l bre and that public discussions of breastfeeding say more about infatuation with personal responsibility and perfect mothering in America than they do about the concrete benefits of the breast Parsing the rhetoric of expert advice including the recent National Breastfeeding Awareness Campaign and rigorously questioning the scientific evidence *Is Breast Best* uncovers a path by which a mother can feel informed and confident about how best to feed her thriving infant whether flourishing by breast or by bottle

Beyond the Breast-bottle Controversy ,2007 *Mother's Milk* Bernice L. Hausman, 2014-02-04 *Mother's Milk* examines why nursing a baby is an ideologically charged experience in contemporary culture Drawing upon medical studies feminist scholarship anthropological literature and an intimate knowledge of breastfeeding itself Bernice Hausman demonstrates what is at stake in mothers infant feeding choices economically socially and in terms of women s rights Breastfeeding controversies she argues reveal social tensions around the meaning of women s bodies the authority of science and the value of maternity in American culture A provocative and multi faceted work *Mother's Milk* will be of interest to anyone concerned with the politics of women s embodiment *Culture* ,1989 **Out of Milk** Lesley Frank, 2020-06-15 Did you ever go to bed and wonder if your child was getting enough to eat For food insecure mothers the worry is constant and babies are at risk of going hungry Through compelling interviews Lesley Frank answers the breastfeeding paradox why women who can least afford to buy infant formula are less likely to breastfeed She reveals that what and how infants are fed is linked to the social and economic status of those who feed them She exposes the reality of food insecurity for formula fed babies the constraints limiting mothers ability to breastfeed and the lengths to which mothers must go to provide for their children In a country that leaves the problem of food insecurity to charities public policies are failing to support the most vulnerable populations *Out of Milk* calls out the pressing need to establish the economic and social conditions necessary for successful breastfeeding and for accessible and safe formula feeding for families everywhere **Multinational Monitor** ,1992 **Counseling the Nursing Mother** Judith Lauwers, Debbie Shinskie, Sandra Breck, 2000 *Nursing* **Is There a Father Instinct?** Patrice L.
