## **Documental Inside A Poetic Mind:**

*Documental* Marcy Alexis, 2002 I've always thought it too bad that emotions can't be set gently on pages like words. Oh, sure words convey emotions but wouldn't it be nice to be able to put not the word happiness but happiness on a page not the word laughter but the giggle itself not the word pride but the wonderful feeling we older poets feel when we see the youngsters rising up to take not our places but their own. I am so delighted with *Documental Inside A Poetic Mind*. Everyone should read this book. Nikki Giovanni *Contested Records* Michael Leong, 2020-05-01 Why have so many contemporary poets turned to source material from newspapers to governmental records as inspiration for their poetry? How can citational poems offer a means of social engagement? *Contested Records* analyzes how some of the most well-known twenty-first-century North American poets work with fraught documents. Whether it's the legal paperwork detailing the murder of 132 African captives, state transcriptions of the last words of death row inmates or testimony from miners and rescue workers about a fatal mine disaster, author Michael Leong reveals that much of the power of contemporary poetry rests in its potential to select, adapt, evaluate, and extend public documentation. Examining the use of documents in the works of Kenneth Goldsmith, Vanessa Place, Amiri Baraka, Claudia Rankine, M. NourbeSe Philip, and others, Leong reveals how official records can evoke a wide range of emotions from hatred to veneration, from indifference to empathy, from desire to disgust. He looks at techniques such as collage, plagiarism, re-reporting, and textual outsourcing and evaluates some of the most loved and reviled contemporary North American poems. Ultimately, Leong finds that if bureaucracy and documentation have the power to police and traumatize through the exercise of state power, then so too can document-based poetry function as an unofficial, counterhegemonic, and popular practice that authenticates marginalized experiences at the fringes of our cultural memory.

**Poetry in General** Keegan Cook Finberg, 2025-11-04 In the second half of the twentieth century, poetry leapt out of books and became an interdisciplinary public form. Poetry entered bureaucratic systems of organization like index card catalogues; it pushed the boundaries of privately owned public parks. Keegan Cook Finberg argues that poetry became an increasingly capacious force during this period because it could speak directly to the degradation of the social democratic notion of the public. *Poetry in General* explores how poets expanded their practice into the realms of politics, work, and everyday life from 1960 to the present, from the apex of the welfare state to an era of privatization and austerity. It considers a compelling array of figures including Yoko Ono, George Brecht, Frank O'Hara, Amiri Baraka, Bernadette Mayer, Eleanor Antin, Adrian Piper, and M. NourbeSe Philip, whose works draw on conceptual techniques to transform official documents and spaces. Finberg shows how these public texts expose the mechanisms of the neoliberal consensus about work and leisure, the state's facilitation of capitalism, and enduring racial and gender inequities. She also provides politically charged ways to interpret and critique racial capitalism, anti-abortion legislation, and mass debt. A new literary and institutional history of postwar poetics, this book shows how poetic experiments address the privatization of collective life and rethink the category of the

public **Places that the map can't contain: Poetics in the Anthropocene** Julia Fiedorczuk, Paweł Piszczatowski, 2023-07-10 Inspired by Lynn Keller's notion of the self-conscious Anthropocene the book sets out to consider poetry as a privileged space for rethinking our basic epistemological assumptions Poetry does not have the kind of agency a direct political intervention has in fact as W H Auden famously put it poetry makes nothing happen On the other hand poetry is crucial when it comes to awakening our individual and collective imagination Considering the statement by Lawrence Buell that the current ecological crisis is in the first place a crisis of the imagination this function of poetry comes through as particularly important

**Tiny Surrealism** Roger Rothman, 2012-12-01 New light on both Dalí's well-known and little-studied works and his work as a response to modernism through a focus on Dalí's identification with the small and the marginal

**Spanish American Poetry After 1950** Donald Leslie Shaw, 2008 The principal developments in Spanish American poetry in the second half of the twentieth century Providing a basis for understanding the main lines of development of poetry in Spanish America after Vanguardism this volume begins with an overview of the situation at the mid-century the later work of Neruda and Borges the emergence of Paz Consideration is then given to the decisive impact of Parra and the rise of colloquial poetry politico-social poetry Dalton Cardenal and representative figures such as Orozco Pacheco and Cisneros The aim is to establish a few paths through the largely unmapped jungle of Spanish American poetry in the time period The author emphasises the persistence of a generally negative view of the human condition and the poets' exploration of different ways of responding to it These vary from outright scepticism to the ideological the religious or those derived from some degree of confidence in the creative imagination as cognitive At the same time there is analysis of the evolving outlook on poetry of the writers in question both in regard to its possible social role and in regard to diction
