## **Documents In International Environmental Law:**

**Documents in International Environmental Law** Maria Gavouneli, Ilias Plakokefalos, 2021-05-06 International environmental law is now a standard course for both undergraduate and postgraduate law students all over the world This collection follows the essential structure of environmental regulation in an attempt to provide a clear picture of the mechanics of the system It is comprised of a General Part general principles procedural obligations and civil liability and non compliance procedures selected Sectoral Regimes the fundamental elements of the natural environment habitat sea atmosphere freshwater resources polar regions and the primary regimes of man made intervention nuclear power chemicals waste and Interface Regimes trade and environment human rights and environment armed conflict and environment The multitude of often interconnected international environmental documents is categorized in a way that the interactions between the international and the regional as well as the general and the sectoral become immediately obvious An advantage of this collection is the comprehensive index that will provide a quick starting point for research in cross cutting themes This collection will appeal to students and lecturers alike as it covers all aspects of a course on the topic It is also a useful desk reference for research students and scholars as well as environmental and international law practitioners

**Documents in International Environmental Law** Paolo Galizzi, 2016 Documents in International Environmental Law is the companion volume to the second edition of Philippe Sands Principles of International Environmental Law Cambridge 2003 It comprises a representative selection of international environmental treaties and documents essential to anyone interested in international law within the field of environmental protection This edition represents an up to date collection of the most important documents and makes the text and the key information on the legal status of the various acts including its parties where a treaty is concerned easily accessible to students academics and practitioners

**Basic Documents of International Environmental Law** Harald Hohmann, 1992-08-26

**Basic Documents of International Environmental Law** Harald Hohmann, 1992-08-26 *Principles of International Environmental Law: Documents in international environment law , Principles of International Environmental Law* Philippe Sands, 1994-09 This is set consisting of four volumes providing a post UNCED account of the international principles and rules relating to the protection of the environment and conservation of natural resources The set comprises a textbook of environmental law principles and three volumes of documents The textbook can be used on its own as a reference or course text or in conjunction with its companion collections of documents Each volume is available separately

**Basic Documents of International Environmental Law** Harald Hohmann, 1992-08-26 This work reproduces the important environmental declarations resolutions guidelines decisions recommendations and drafts of the principal relevant international organizations UNO UNEP ECE OECD Council of Europe and recording bodies ILA IDI ILC It also records the important international environmental conventions and draft conventions produced over the last thirty years

Basic Documents of

International Environmental Law Harald Hohmann,1992      Basic Documents on International Law and the Environment  
Patricia W. Birnie,Alan E. Boyle,1995 Basic Documents on International Law offers an authoritative and wide ranging  
selection of key documents in this important and increasingly popular area of law and will provide students and scholars with  
an invaluable companion to the authors highly successful textbook International Law and the Environment The editors have  
compiled a collection which includes all the major treaties and other legal instruments relevant to the protection of the  
environment in international law Topics covered include the codification and development of international environmental law  
marine pollution the protection of the atmosphere nuclear risks control of hazardous substances and international  
watercourses Each text is preceded by a short introduction by the editors who are both leading scholars in the field
