The Law Market Erin A. O'Hara, Larry E. Ribstein, 2009-02-09 Today a California resident can incorporate her shipping business in Delaware register her ships in Panama hire her employees from Hong Kong place her earnings in an asset protection trust formed in the Cayman Islands and enter into a same sex marriage in Massachusetts or Canada all the while enjoying the California sunshine and potentially avoiding many facets of the state's laws In this book Erin O Hara and Larry E Ribstein explore a new perspective on law viewing it as a product for which people and firms can shop regardless of geographic borders The authors consider the structure and operation of the market this creates the economic legal and political forces influencing it and the

arguments for and against a robust market for law Through jurisdictional competition law markets promise to improve our laws and by establishing certainty streamline the operation of the legal system But the law market also limits governments ability to enforce regulations and protect citizens from harmful activities Given this tradeoff O Hara and Ribstein argue that simple contractual choice of law rules can help maximize the benefits of the law market while tempering its social costs They extend their insights to a wide variety of legal problems including corporate governance securities franchise trust property marriage living will surrogacy and general contract regulations The Law Market is a wide ranging and novel analysis for all lawyers policymakers legislators and businesses who need to understand the changing role of law in an increasingly mobile world **Currents** ,2001
