

THE DENATURED NOVEL

A program, widely exposed
of how the book publishers,
the movies and the authors themselves
are corrupting their product—
and how their manipulations
affect you and your children
by distorting the image
of your world

Cain** David Madden,Kristopher Mecholsky,2011-04-28 James M Cain wrote some of the grittiest novels in American literature including such classics as *The Postman Always Rings Twice* *Double Indemnity* and *Mildred Pierce* James M Cain *Hard Boiled* *Mythmaker* is a critical overview of the author s life work and legacy An updated and expanded edition of two of David Madden s scholarly works on Cain this new book improves upon the previous works by collecting the most essential writing on Cain by Madden into one volume In addition to melding existing material this work contains updated and new material including fresh commentaries on later books such as *Rainbow s End* *Cloud Nine* and *The Enchanted Isle* as well as later film adaptations including *Butterfly* It also responds to 40 years worth of criticism on Cain and reevaluates his influence Providing an overview of all of Cain s fiction including an analysis of the major themes of his entire literary career the book also describes Cain s impact on and importance in 20th century culture film in particular In addition to a biographical summary and thematic outline of Cain s nearly 50 year career Madden and Mecholsky examine how Cain s works explore the nightmare consequences of the persistent American dream Finally Madden and Mecholsky consider Cain s technical innovations of the novel and survey the major film adaptations of Cain s novels With its significant in depth analysis and a foreword by Edgar award winning author Max Allan Collins this volume will be of interest to Cain scholars as well as anyone interested in 20th century American literature and film **Men Alone** Jopi Nyman,2022-02-28 This study examines masculinity and individualism in four American novels of the 1920s and 1930s usually regarded as belonging to the genre of hard boiled fiction The novels under study are *Red Harvest* by Dashiell Hammett *The Postman Always Rings Twice* by James M Cain *They Shoot Horses Don t They* by Horace McCoy and *To Have and Have Not* by Ernest Hemingway In this first full length study of gender in hard boiled fiction the genre is discussed as a representation of the ideologies of masculinity and

individualism Hard boiled fiction is located in its historical and cultural context and it is argued that the genre with its explicit emphasis on masculinity and masculine virtues attempts to reaffirm a masculine order The study argues that this emphasis is a counter reaction to more general changes in the gender relations of the period Indeed hard boiled fiction is argued to be an attempt to reconstruct a masculine identity based on anti modern values generally accepted in the cultural context of the genre The American Novel Donna Lorine Gerstenberger,George Hendrick,1961 Lists selected 20th century criticism of specific novels general studies and bibliographies of individual authors The Book Buyer's Guide ,1962

Flory,2006 When the first edition of David Madden s A Primer of the Novel For Readers and Writers was published more than twenty five years ago there were no other books of its kind available Since then many authors and editors have produced works that attempt the same comprehensive coverage of the genre However these works tend to be either written solely for writers or solely for readers More often than not those written for readers tend to be aimed at advanced students or critics of the novel In this revised edition David Madden Charles Bane and Sean Flory have produced an updated work that is intended for a general readership including writers teachers and students who are just being introduced to the genre This unique handbook provides a definition and history of the novel a description of early narratives and a discussion of critical approaches to this literary form A Primer of the Novel also identifies terms definitions commentary and examples in the form of quotations for almost 50 types of novels and 15 artistic techniques A chronology of narrative in general and of the novel in particular from 850 B C to the present is also included along with indexes to authors titles novel types and techniques as well as a selective bibliography of criticism Although all novel types present in the first edition are still represented many have become more clearly defined This revised edition also cites several types of novels that did not appear in the first edition such as the graphic novel and the novel of Magical Realism As well as keeping all of the original examples from representative texts the authors have added new examples of more recent works While this book was conceived for a general audience it will be a valuable resource for students teachers and libraries It may be used in any English literature courses at any level including graduate and is suited for creative writing courses as well With its clear and immediately accessible
