Doctors Without Borders:

Doctors Without Borders Renée C. Fox, 2014-06-01 An intimate portrait of the renowned international humanitarian organization Winner of the PROSE Award for Excellence Sociology and Social Work of the Association of American Publishers This study of Médecins Sans Frontières Doctors Without Borders MSF casts new light on the organization's founding principles distinctive culture and inner struggles to realize more fully its without borders transnational vision Pioneering medical sociologist Renée C Fox spent nearly twenty years conducting extensive ethnographic research within MSF a private international medical humanitarian organization that was created in 1971 and awarded the Nobel Prize for Peace in 1999 With unprecedented access Fox attended MSF meetings and observed doctors and other workers in the field She interviewed MSF members and participants and analyzed the content of such documents as communications between MSF staff members within the offices of its various headquarters communications between headquarters and the field and transcripts of internal group discussions and meetings Fox weaves these threads of information into a rich tapestry of the MSF experience that reveals the dual perspectives of an insider and an observer The book begins with moving detailed accounts from the blogs of women and men working for MSF in the field From there Fox chronicles the organization's early history and development paying special attention to its struggles during the first decades of its existence to clarify and implement its principles The core of the book is centered on her observations in the field of MSF's efforts to combat a rampant epidemic of HIV AIDS in postapartheid South Africa and the organization's response to two challenges in postsocialist Russia an enormous surge in homelessness on the streets of Moscow and a massive epidemic of tuberculosis in the penal colonies of Siberia Fox's accounts of these crises exemplify MSF's struggles to provide for thousands of people in need when both the populations and the aid workers are in danger Enriched by vivid photographs of MSF operations and by ironic self-critical cartoons drawn by a member of the Communications Department of MSF France Doctors Without Borders highlights the bold mission of the renowned international humanitarian organization even as it demonstrates the intrinsic dilemmas of humanitarian action

Healing Our World David Morley, 2007 When children are caught in civil wars when earthquakes destroy homes and villages when AIDS and other diseases shatter families and communities the volunteers of Doctors Without Borders are there Their mission is simple to bring life-saving care to the world's neediest people and to speak out when the rights of the people in their care are abused or violated Médecins Sans Frontières known in English as Doctors Without Borders and by its volunteers as MSF is the world's largest independent medical humanitarian relief organization Every year more than 3 000 MSF volunteers and 12 000 local men and women bring medical aid to people in more than 70 countries In Healing Our World David Morley presents his own story and the stories of other MSFers who have volunteered in some of the most dangerous and forgotten corners of the world the Congo El Salvador Chechnya Bangladesh Mozambique Afghanistan southern Africa These are stories about healing and helping people about making the world a better place stories filled with

sorrow and hope anger and idealism determination and passion The words and experiences good and bad of MSF volunteers who come from all over the world and every walk of life Information about MSF s history how it selects its volunteers and decides where to send them Includes photographs from the field Excerpt When I tell friends at home in Canada about the things I have seen they often say It must be so depressing But my work has never felt depressing Doctors Without Borders is an organization built to act to make things better Together with other volunteers and the support of millions of people around the world we don t have to sit by helplessly and see a disaster unfold before us wondering what on earth we can do The gift of action is ours

Human Rights Discourse in a Global Network Lena Khor,2016-05-13 In her innovative study of human rights discourse Lena Khor takes up the prevailing concern by scholars who charge that the globalization of human rights discourse is becoming yet another form of cultural legal and political imperialism imposed from above by an international human rights regime based in the Global North To counter these charges she argues for a paradigmatic shift away from human rights as a hegemonic immutable and ill defined entity toward one that recognizes human rights as a social construct comprised of language and of language use She proposes a new theoretical framework based on a global discourse network of human rights supporting her model with case studies that examine the words and actions of witnesses to genocide Paul Rusesabagina and humanitarian organizations Doctors Without Borders She also analyzes the language of texts such as Michael Ondaatje s Anil s Ghost Khor s idea of a globally networked structure of human rights discourse enables actors textual and human who tap into or are linked into this rapidly globalizing system of networks to increase their power as speaking subjects and in so doing to influence the range of acceptable meanings and practices of human rights in the cultural sphere Khor s book is a unique and important contribution to the study of human rights in the humanities that revitalizes viable notions of agency and liberatory network power in fields that have been dominated by negative visions of human capacity and moral action
