**Documents of American Catholic History** John Tracy Ellis, 2012-05-01 **Documents of American Catholic History: 1493-1865** John Tracy Ellis, 1987 Vols 1 2 are reprints Originally published Chicago H Regnery Co 1967 Vol 3 is a new work Includes bibliographical references and indexes v 1 1493 1865 v 2 1866 1966 v 3 1966 1986

Documents of American Catholic History. Edited by J.T. Ellis John Tracy Ellis, 1956 **Documents of American Catholic history** John Tracy Ellis (ed), 1962 American Catholic History Mark Massa, 2008-04-01 An overview in primary documents of almost four hundred years of the American Catholic experience Catholics were among the early Spanish explorers to the New World and they have a long and rich history in the United States By taking account of significant letters diaries theological reflections and other primary documents we can listen to the voices of what real Catholics in this country have thought believed feared and dreamed American Catholic History makes available original documents produced in North America from the earliest missionary voyages in the sixteenth century up to the present day The texts have been selected to illuminate the complex history beliefs and practices of what has become North American Roman Catholicism They are prefaced by brief editorial introductions which provide historical and biographical context for the texts They illuminate broad themes in the development of the tradition from its grappling with new frontiers to its long time status as outside mainstream culture and from its intellectual life and political engagement to patterns of worship and spirituality American Catholic History offers an overview of the American Catholic experience from both the top down of institutional and intellectual history as well as from the bottom up of social devotional women s and ethnic histories

**Documents of American Catholic History** John Tracy Ellis, 1962 **Documents of American Catholic History (Classic Reprint)** John Tracy Ellis, 2015-07-06 Excerpt from Documents of American Catholic History A word should be said about the method used in collecting and editing the documents First with the exception of those from the colonial period the arrangement is chronological Since the Catholic missions of the three European powers that sent out colonies from the sixteenth through the eighteenth centuries are usually treated as separate units it seemed best to break the chronology in this earlier section and list the entries under the headings of Spain France and England It was also thought preferable to put two or more items on a single person together under the date of the first document rather than to separate them Most of the material was naturally taken from sources in English but for that written in foreign languages standard translations were

**Documents of American Catholic History** John Tracy Ellis, 1962 **Documents of American Catholic History (Classic Reprint)** John Tracy Ellis, 2015-07-06 Excerpt from Documents of American Catholic History A word should be said about the method used in collecting and editing the documents First with the exception of those from the colonial period the arrangement is chronological Since the Catholic missions of the three European powers that sent out colonies from the sixteenth through the eighteenth centuries are usually treated as separate units it seemed best to break the chronology in this earlier section and list the entries under the headings of Spain France and England It was also thought preferable to put two or more items on a single person together under the date of the first document rather than to separate them Most of the material was naturally taken from sources in English but for that written in foreign languages standard translations were

used whenever they were available In a few cases however translations were made either by the editor himself or were supplied to him through the kindness of friends In the main the documents are printed just as they appear in the original source although in some instances minor changes have been made either to improve the translations from foreign sources or to insert punctuation in certain English documents in order to clarify the meaning For each item a single source has been cited in the introductory note although in some instances the same document may be found in several collections The translations of papal bulls and encyclicals generally give the student a reference to the official collections of the Holy See where the original may be read in Latin While reference has frequently been made in the introductory notes to pertinent books and periodicals no effort has been made to add a formal bibliography with each document Most of the better books in American Catholic history contain bibliographies and for all the essential works published up to three years ago the editor's *A Guide to American Catholic History* Milwaukee 1959 will serve the purpose The editor is conscious of the fact that some readers may feel the need for more of a commentary than they will find in the introductory notes An effort was made to supply the necessary background for a proper understanding of each document nonetheless a few over all comments may help to clarify certain matters that recur in a number of the entries This is especially true where the material touches on ecclesiastical points of a somewhat technical nature that are often not familiar to the lay reader About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
