**Absolute Beneath the Relative and Other Essays** Stanley L. Jaki, 1988-10-11      **The Absolute Beneath the Relative and Other Essays** Stanley L. Jaki, 1988-12-07 The exploitation of Einstein's relativity theory on behalf of the relativization of all norms and values is the most conspicuous aspect of a culturally disastrous trend which in its various ramifications is the critical target of this book. Students of history, psychology, sociology, and metaphysics will find much food for thought and rich material in this latest of the author's long-standing efforts aimed at the demythologization of science. This book presents fourteen not readily available essays of the winner of the Templeton Prize for 1987. Co-published with the Intercollegiate Studies Institute.

*The Book of Absolutes* William D. Gairdner, 2008-08-21 A lively challenge to postmodern opinion that reveals satisfying and reliable certainties.

**The Only Chaos and Other Essays** Stanley L. Jaki, 1990 This new collection of essays continues the same theme which Jaki frequently addresses: that of the development of intellectual strategy to protect the worth of the human being in a scientific and technological age. The physicist-theologian brings us face to face with relativism, the only chaos, and steers us clear of two philosophies: physicalism, in which increased quantification is supposed to bring us nearer to the source of knowledge, and a bucolic humanism which decries technology while reaping its benefits. Jaki's analyses are useful examples to students in the disciplines combatting deconstructionism, the new historicism, and cultural relativism. Co-published with the Intercollegiate Studies Institute.

**Mystery Of Time, The: Asymmetry Of Time And Irreversibility In The Natural Processes** Alexander Leonidovich Kuzemsky, 2022-10-14 The book focuses on the study of the temporal behavior of complex many-particle systems. The phenomenon of time and its role in the temporal evolution of complex systems is a remaining mystery. The book presents the necessity of the interdisciplinary point of view regarding the phenomenon of time. The aim of the present study is to summarize and formulate in a concise but clear form the trends and approaches to the concept of time from a broad interdisciplinary perspective, exposing tersely the complementary approaches and theories of time in the context of thermodynamics, statistical physics, cosmology, theory of information, biology, and biophysics, including the problem of time and aging. Various approaches to the problem show that time is an extraordinarily interdisciplinary and multifaceted underlying notion which plays an extremely important role in various natural complex processes.

Why God Hides Fr. John Portavella, 2018-05-25 Why does God hide day in and day out from those of us who yearn to hear His voice? When we do good, there's no heavenly applause. When we do evil, no divine rebuke. And when great horrors visit us, He rarely intervenes. In good times and bad, there's just silence—the awful silence of God. Now comes *Why God Hides*, this magnum opus of Fr. John Portavella, written after many decades of listening to God's silence in his own life and in that of thousands of his parishioners. Those years of listening, reading, thinking, and praying have made ever more clear to him, and with the help of this book will make clear to you, that in fact God is not silent, nor is He hidden, if only you know how to listen and learn where to look. Time and again in the events of salvation history and in the

trials and joys of our daily lives Fr Portavella here unveils the Face of God and lets us hear His voice speaking in every instance words of sweet love Why God Hides is a remarkable once in a lifetime book that scatters the darkness of our minds giving us myriad glimpses of our supposedly hidden God bringing with each of those glimpses the consolation and joys we have yearned for so long

**Catholic Essays** Stanley L. Jaki,1990 *Continuity*,1990 Willa Cather and Six Writers from the Great War James J. **Newman's Challenge** Stanley L. Jaki,2000 This study of John Henry Cardinal Newman 1801-1890 confronts a variety of misperceptions of the famous English bishop especially those that diminish Newman's deep appreciation of the supernatural As Stanley Jaki writes Newman's chief challenge today as in his times aims at the defense of the supernatural Jaki shows that such a defense was for Newman far more than a simple intellectual enterprise For Newman the supernatural was above all a spiritual challenge of the profoundest sort In this volume Jaki begins with an overview of the challenge that Newman set for himself and for the church Jaki then unfolds this challenge across a dozen key topics drawn from Newman's writings Jaki shows that much as the topics of original sin angels miracles Anglo Catholicism conversion and papacy may differ from those of assent science evolution and history they all bespeak Newman's total engagement with the concretely given supernatural

**A Mind's Matter** Stanley L. Jaki,2002 Stanley Jaki's explosive productivity canvasses a wide range of relevant topics most notably the history of science and has earned him such signal honors as the Gifford lectureship and the Templeton Prize A Hungarian by birth Jaki has since 1950 lived in the United States where one's religion is supposed to be a strictly private affair Yet as a Catholic priest of the Benedictine Order Jaki has never made secret his dislike of the rule that expects one to eliminate religious factors from the so called academic equation To his mind those factors matter very much indeed

*Biotechnology and the Assault on Parenthood* Donald DeMarco,1991 An expert in the field presents a comprehensive and readable discussion of the moral legal psychological and sociological impact that modern forms of reproductive technology have on parenthood and the family DeMarco looks beneath the surface of reproductive technology and exposes its deceptions failures and dangers that threaten the very meaning of parenthood and family
