## **Absolutism In Central Europe:**

**Absolutism in Central Europe** Peter Wilson, 2002-11 Absolutism in Central Europe is about the form of European monarchy known as absolutism how it was defined by contemporaries how it emerged and developed and how it has been interpreted by historians political and social scientists This book investigates how scholars from a variety of disciplines have defined and explained political development across what was formerly known as the age of absolutism It assesses whether the term still has utility as a tool of analysis and it explores the wider ramifications of the process of state formation from the experience of central Europe from the early seventeenth century to the start of the nineteenth *Absolutism in Central Europe*, 2000

King Chǒngjo, an Enlightened Despot in Early Modern Korea Christopher Lovins, 2019-03-25 Were the countries of Europe the only ones that were early modern Was Asia's early modernity cut short by colonialism Scholars examining early modern Eurasia have not yet fully explored the relationships between absolute rule and political modernization in the highly contested early modern world Using a comparative perspective that places Chǒngjo king of Korea from 1776 to 1800 in context with other Korean kings and with contemporary Chinese and European rulers Christopher Lovins examines the shifting balance of power in Korea in favor of the crown at the expense of the aristocracy during the early modern period This book is the first to analyze in English the recently discovered collection of 297 private letters written by Chǒngjo himself These letters were a vital channel of communication outside of official court historians scrutiny since private meetings between the king and his ministers were forbidden by custom Royal politics played out in an arena of subtle communication with court officials trying to read the king's unstated elliptically hinted at intentions and the king trying to suggest what he wanted done while maintaining plausible deniability Through close analysis of both official records and private letters including Chǒngjo's secret letters Lovins shows that in contrast to previous assumptions the late eighteenth century Korean monarchs were not weak and ineffective but instead were in the process of building an absolutist polity

Parliamentarism in Northern and East-Central Europe in the Long Eighteenth Century István M. Szijártó, Wim Blockmans, László Kontler, 2022-09-30 This volume investigates the history of the representative assemblies of Sweden the riksdag Poland the sejm and Hungary the diaeta in the final period of the ancien régime It concentrates on the practices and ideas of parliamentarism and constitutionalism and examines the ideologies that motivated the members of these parliaments Attempts at the suppression as well as the restoration of the estates power in all these three countries are examined as well as in the case of Hungary the establishment of popular representation that eventually replaced the estates These three early modern representative assemblies have never before been explored systematically in a comparative framework *Journal of Central European Affairs*, 1958

From 'Civil Society' to 'Europe' Grazyna Skapska, 2011-05-23 Drawing on the sociological theory of reflexive modernization and the doctrine of liberal democracy this book debates the formation of postcommunist constitutionalism Examination of Poland in comparison with other postcommunist countries leads to a new theory of reflexive
