## **Academic Murder:**

**Extreme Killing** James Alan Fox, Jack Levin, Emma E. Fridel, 2023-03-30 Accessibly written yet analytically rich *Extreme Killing: Understanding Serial and Mass Murder* is renowned for its fascinating examination of historical and contemporary serial and mass murder. Authors and experts in the field, James Alan Fox, Jack Levin, and Emma Fridel, bring their years of research to bear in this fascinating analysis of serial, multiple, and mass murder. They examine the theories of criminal behavior and apply them to a multitude of tragic events that involve hate crimes, killings at religious services, music festivals, and school shootings. This Fifth Edition is filled with contemporary and classic case studies and has been updated to include coverage of controversial issues such as gun control and mental illness, the role of high-powered weapons in mass shootings, and the distinction between serial and mass murder.

**Comic Crime** Earl F. Bagginier, 1987 The actual world of crime is not a subject for laughter but rather for anger or tears. The world of fiction, however, is a different matter. Most crime fiction is much nearer the comic than the tragic. In the oldest sense of the term, comedy that no matter the difficulties, misunderstandings, or even deaths, the evil are thwarted and the good rewarded. Crime fiction is essentially comic. The following eleven original essays cover a wide range in time, authors, forms of fiction, and types of comedy. I hope readers will be both informed and entertained by this excursion into British and American humor and homicide comedy and crime.

**Homicide and Severe Mental Disorder** Michael Farrell, 2021-07-21 *Homicide and Severe Mental Disorder: Understanding and Prevention* provides a complete picture of how severe mental disorder can be assessed in cases of homicide and how improved understanding can impact risk reduction and prevention. Michael Farrell brings together a wide range of material including theory, research, demographic data, case examples, enquiry reports, and practical strategies, providing clear examples throughout. Farrell draws on examples of homicide representing a great challenge to both comprehension and prevention cases that have sometimes provoked media criticism of public policy and services and have aroused public anxiety. In seeking fuller understanding, the book takes an overview of severe mental disorder, homicide, and prevention before introducing the approach of Situational Crime Prevention and related theory, and discussing demographic features of perpetrators and victims. Turning to prevention, the text examines examples of research into homicides perpetrated by individuals with severe mental disorder. Insights from Situational Crime Prevention are applied to selected cases, and a wider view is then taken, looking at the criminological features of means, motive, opportunity, and location. Organisational constraints and limitations of communication in services are considered, and cases illuminating the issues and challenges throughout the book are summarised in a structured end-of-volume glossary. As evidence and insights accumulate and cohere, they more clearly indicate preventive strategies. *Homicide and Severe Mental Disorder* will be of great interest to students, researchers, and

teachers in psychiatry psychology and criminology health and mental health professionals criminal justice personnel and those working with individuals with severe mental disorder
