**Of Labour and Liberty** Race Mathews,2018-02-28 What will the future of work social freedom and employment look like In an era of increased job insecurity and social dislocation is it possible to reshape economics along democratic lines in a way that genuinely serves the interests of the community Of Labour and Liberty arises from Race Mathews s half century and more of political and public policy involvement It responds to evidence of a precipitous decline in active citizenship resulting from a loss of confidence in politics politicians parties and parliamentary democracy the rise of lying for hire lobbyism increasing concentration of capital in the hands of a wealthy few and corporate wrongdoing and criminality It also questions whether political democracy can survive indefinitely in the absence of economic democracy of labor hiring capital rather than capital labor It highlights the potential of the social teachings of the Catholic Church and the now largely forgotten Distributist political philosophy and program that originated from them as a means of bringing about a more equal just and genuinely democratic social order It describes and evaluates Australian attempts to give effect to Distributism with special reference to Victoria And with an optimistic view to future possibilities it documents the support and advocacy of Pope Francis and ownership by some 83 000 workers of the Mondragon cooperatives in Spain This book will interest scholars and students of Catholic social teaching history economics industrial relations and business and management

*Translating National Allegories* Alistair Rolls,John West-Sooby,Marie-Laure Vuaille-Barcan,2019-04-15 This book explores the intersection of a number of academic areas of study that are all individually of growing importance translation studies crime fiction and world literature The scholars included here are leaders in one or more of these areas The frame of this volume is imagological its focus is on the ways in which national allegories are constructed and deconstructed encompassing descriptions of national characteristics as they play out at the level of the local or the individual as well as broader political analyses Its corpus crime fiction is shown to be a privileged site for writing the national narrative and often in ways that are more complex and dynamic than is suggested by the genre s much cited role as vehicle for a new realism Finally these two areas are problematised through the lens of translation which is a crucial player in both the development of crime fiction and the formation rather than simply the interlingual transfer of national allegory In this volume national allegories and the crime novels in which they emerge are shown to be eminently versatile foundationally plural texts
