Achieving Our Country:

Achieving Our Country Richard Rorty, 1999 One of America's foremost philosophers challenges the lost generation of the American Left to understand the role it might play in the great tradition of democratic intellectual labor that started with writers such as Walt Whitman and John Dewey

[Pragmatism and Social Hope](#) Judith M. Green, 2008-11-20 Since 9/11 citizens of all nations have been searching for a democratic public philosophy that provides practical and inspiring answers to the problems of the twenty-first century Drawing on the wisdom of past and present pragmatist thinkers Judith M Green maps a contemporary form of citizenship that emphasizes participation and cooperation and reclaims the critical role of social movements and nongovernmental organizations Starting with empowering processes of storytelling truth and reconciliation and collaborative vision questing that allow individuals to give voice and new meaning to their loss anxiety and hope Green frames cooperative inquiries to guide transformative actions From this second strand of the democratic experience leaders and participating citizens can help to shape a more desirable democratic future In dialogue with Richard Rorty Judith Butler James Baldwin Martin Luther King Jr Elie Wiesel Viktor Frankl Cornel West and other contemporary thinkers Green defines the need for deeper understanding and fulfillment of the potentials of the democratic ideal Drawing insights from Thomas Jefferson Walt Whitman William James John Dewey Jane Adams and other earlier thinkers Green frames a pragmatist understanding of emerging realities and possibilities growing wells of shared truths multifaceted histories and mutually transformative experiences of citizenship Employing examples from America's complex history and from recent world events Green locates four sites for effective citizen activism government at all levels nonprofit organizations issue focused campaigns and social movements and daily urban living Green shows how citizens can revive social hope and deepen the democratic experience by drawing on their own knowledge and developing their capabilities through inclusive civic participation

A Pragmatist's Progress? John Pettegrew, 2000 In this volume a host of distinguished scholars examine Richard Rorty's influence on twentieth-century American pragmatism and its commitment to achieving social democracy Rorty's reclaiming of the pragmatist tradition and his contribution to the discipline of intellectual history are highlighted at the same time each essay finds Rorty's pragmatism most fully enunciated in *Contingency Irony and Solidarity* lacking in its privatist vision of the good life This criticism is drawn out through explicit comparisons between Rorty and his grandfather Walter Rauschenbusch William James John Dewey Randolph Bourne Richard J Bernstein and other twentieth-century pragmatist thinkers This volume offers the most complete historical treatment of this controversial intellectual to date

The Beloved Community Charles Marsh, 2008-07-31 A noted theologian explains how the radical idea of Christian love animated the African American civil rights movement and how it can power today's social justice struggles Speaking to his supporters at the end of the Montgomery bus boycott in 1956 Martin Luther King Jr declared that their common goal was not simply the end of segregation as an institution Rather the end is reconciliation the end is

redemption the end is the creation of the beloved community King's words reflect the strong religious convictions that motivated the African American civil rights movement As King and his allies saw it Jesus had founded the most revolutionary movement in human history a movement built on the unconditional love of God for the world and the mandate to live in that love Through a commitment to this idea of love and to the practice of nonviolence civil rights leaders sought to transform the social and political realities of twentieth century America In *The Beloved Community* theologian and award winning author Charles Marsh traces the history of the spiritual vision that animated the civil rights movement and shows how it remains a vital source of moral energy today *The Beloved Community* lays out an exuberant new vision for progressive Christianity and reclaims the centrality of faith in the quest for social justice and authentic community

Becoming Who We Are Andrew Norris, 2017-07-03 *Becoming Who We Are* clarifies the political and existential aspects of Stanley Cavell's understanding of ordinary language and of skepticism and shows the close connection between his reception of Kant Heidegger and Austin and his exploration of what Emersonian Perfectionism offers to democracy and modern life

Micropolitics of Media Culture Patricia Pisters, Catherine M. Lord, 2001 This book focuses on the micro political implications of the work of Gilles Deleuze and Félix Guattari General philosophical articles are coupled to more specific analyses of films such as *Fight Club* and *Schindler's List* and other expressions of contemporary culture The choice of giving specific attention to the analyses of images and sounds is not only related to the fact that audiovisual products are increasingly dominant in contemporary life but also to the fact that film culture in itself is changing in transition in capitalist culture From a marginal place at the periphery of economy and culture at large audiovisual products ranging from art to ads seem to have moved to the centre of the network society as Manuel Castells calls contemporary society Typical Deleuzian concepts such as micro politics the Body without Organs becoming minoritarian pragmatics and immanence are explored in their philosophical implications and political force whether utopian or dystopian What can we do with Deleuze in contemporary media culture A recurring issue throughout the book is the relationship between theory and practice to which several solutions and problems are given

Goodness and Tradition Irene Liu, 2025-10-28 This book investigates the importance of spirituality in moral life The author claims that modern secular morality suffers from a lack of spirituality and argues that a solution to this problem can be found in tradition Over several centuries a process of secularization has loosened both the hold and the appeal of religion in the West Morality did not dissipate as many feared it would This book is motivated by the idea that nevertheless something important was lost along the way Arguing that a lack of spirituality has weakened secular moral life the author seeks to identify an alternative source of spirituality that is not divine or supernatural To this end she considers three perspectives that offer potential sources of secular spirituality Aristotelian humanism which emphasizes nature existentialist humanism which emphasizes freedom and choice and Confucian humanism which emphasizes rituals The author ultimately defends the view that traditions are intrinsically good as creations that elevate human nature through their customs practices and

institutions Further she argues that the initiation into tradition is necessary to bring a person into the space of reasons which encompasses both moral and non moral values In consequence traditions are appropriate objects of existential gratitude which some theists hold to be the foundation of religious experience Thus it is possible to infuse secular moral life with spirituality by reawakening a love for the traditions in which it is already embedded Goodness and Tradition will appeal to scholars and graduate students in ethics metaethics and moral psychology who are interested in questions of moral motivation and experience It will also appeal to those who are interested in the role of religion in moral life as well as philosophers who are interested in comparative approaches to Western and Chinese thought
