Crisis In Civilization:

Crisis in Civilization Rabindranath Tagore,1950 *Crisis in Civilization* Rabindranath Tagore,1941 **A User's Guide to the Crisis of Civilization** Nafeez Mosaddeq Ahmed,2010-08-06 It often seems that different crises are competing to devastate civilisation This book argues that financial meltdown dwindling oil reserves terrorism and food shortages need to be considered as part of the same ailing system Most accounts of our contemporary global crises focus on one area such as climate change or the threat of terrorism to the exclusion of others Nafeez Mosaddeq Ahmed argues that the unwillingness of experts to consider crises from an interdisciplinary perspective has resulted in their failure to understand historical events From ecology and the environment to political governance the global economy and international relations Ahmed investigates contemporary crises not as isolated events but as trends and processes that belong to a single global system Ahmed posits that we are therefore not dealing with a clash of civilisations as Samuel P Huntington argued Rather we are dealing with a fundamental crisis of civilisation itself

The Crisis Of Civilization Hilaire Belloc,1992-10-03 Here the great Belloc shows that ever since the disaster of the Protestant Reformation Western civilization which was formed by the Catholic Faith has been coming apart since Calvinism opened the door to usury unbridled competition the domination of the mind by money and ultimately the return of slavery Belloc says our 2 choices are a return to Catholicism or chaos Essential for anyone who would understand our world today

Civilization's Crisis John Avery,2017 Modern civilization faces a broad spectrum of daunting problems but rational solutions are available for them all This book explores the following issues 1 Threats to the environment and climate change 2 a growing population and vanishing resources 3 the global food and refugee crisis 4 intolerable economic inequality 5 the threat of nuclear war 6 the military industrial complex and 7 limits to growth These problems are closely interlinked and their possible solutions are discussed in this book

Globalization and Civilizations Mehdi Mozaffari,2003-09-02 Globalization and Civilizations challenges established assumptions about the nature of civilizations and the supposed inevitability of the conflict between the Islamic and Western worlds Uniquely this edited book critically interrogates the concept of civilization by asking whether it is still valid in the globalized world economy of the twenty first century The first half of the book provides an historical and theoretical context to understand the idea of civilization in political science and demonstrates how the various social economic political and cultural processes of globalization have radically altered perceptions of civilization The second half of the book looks particularly at non Western examples of the interaction between globalization and civilization and includes case studies on the Arab world Islam China India and Europe

Civilization's Crisis: A Set Of Linked Challenges John Scales Avery,2017-04-20 Modern civilization faces a broad spectrum of daunting problems but rational solutions are available for them all This book explores the following issues 1 Threats to the environment and climate change 2 a growing population and vanishing resources 3 the global food and refugee crisis 4 intolerable economic inequality 5 the threat of nuclear war 6 the military industrial complex and 7 limits

to growth These problems are closely interlinked and their possible solutions are discussed in this book **The Unitarian**,1908 The Creation: Its Infinite Features and Finite Realms Volume I Jack Hetrick,2014-09-19 In the last decade of the twentieth century A D a discovery was made of a body of knowledge which it is believed has important implications for the future of man In 1996 it was discovered that many cultural artifacts produced by man since about 30 000 B C possess an unusual symbolism This symbolism as we shall see has a mathematical component associated with it that finds expression in the form of alignments and points of alignments Because of this the interpretation of this symbolism is not entirely subjective but has an objective aspect to it as well In The Creation Its Infinite Features and Finite Realms artifacts of man that possess this unusual symbolism are referred to as inspired sources They are called inspired because the symbolism present in these artifacts is believed to be inspired by the Creator and they are called sources because the increments of knowledge transmitted by the symbolism of these artifacts are sources of knowledge **Albert Schweitzer: an Anthology** Albert Schweitzer,1947 Selections from the writings of the philosopher theologian musician humanitarian With a chronological summary of Dr Schweitzer s life and a biographical introduction Book jacket **The Crisis of Our Civilization** Hilaire Belloc,1937 *The World's Greatest Literature* ,1900 *Journal of the Proceedings of the ...
