Critical Aesthetics And Postmodernism

**Gerhard Hoffmann (Dr. phil.), Alfred
Hornung**

Critical Aesthetics And Postmodernism:

Critical Aesthetics and Postmodernism Paul Crowther, 1996 In this monograph Paul Crowther seeks to overcome some of the antagonistic positions taken in recent debates about postmodernism He addresses such issues as the relation between art and politics artistic creativity and sublimity and the postmodern sensibility His analysis of these themes centres on the interplay between what is constant and what is historically variable in human experience

Critical Aesthetics and Postmodernism Paul Crowther, 1996 Critical Aesthetics and Postmodernism Paul Crowther, 1993 Kant's theory of the sublime has become one of the most keenly studied elements in both his own aesthetics and aesthetic theory in general This book offers a sustained analysis of Kant's theory of the sublime as found throughout his critical philosophy

The Persistence of Modernity Albrecht Wellmer, 2018-03-12 In this timely new book Wellmer intervenes in the highly topical debates on modernity and post modernity Discussing the work of Adorno Habermas Peter Burger and Jean Fran ois Lyotard among others he offers a penetrating analysis of the aesthetic ethical and philosophical dimensions of the modern era In opposition to those who view post modernity as a sign of post enlightenment Wellmer makes a reasoned plea for a re examination of the goals of emancipatory Enlightenment and explores its implications for the appreciation of modern art forms

Philosophy After Postmodernism Paul Crowther, 2003-09-02 Formulating a new approach to philosophy which instead of simply rejecting postmodern thought tries to assimilate some of its main features Paul Crowther identifies conceptual links between value knowledge personal identity and civilization understood as a process of cumulative advance To establish these links Crowther deploys a mode of analytic philosophy influenced by Cassirer This approach recontextualizes precisely those aspects of postmodernism which appear superficially to be fuel for the relativist fire This method also enables him to illuminate some of the great practical dangers of the postmodern era most notably the widespread inability or unwillingness to distinguish between signs and reality Crowther renews analytic philosophy as a searching form of conceptual and cultural critique that pushes beyond the limits of postmodern thought Essential reading for advanced students and academics interested in Twentieth Century Philosophy Philosophy After Postmodernism will also be of value to scholars working in the fields of Cultural Studies and Sociology
