

# Science Fiction as Criticism as Fiction

GARY K. WOLFE

■ When Tom Clareson invited me to contribute some thoughts on the current state of science fiction criticism, those thoughts eventually led me to two wildly divergent pieces I had recently been reading. One is Nobel Prize-winning poet Czeslaw Milosz's essay "Science Fiction and the Coming of the Antichrist," included in his collection *Emperor of the Earth: Modes of Eccentric Vision*. While much of Milosz's essay concerns the *Three Conversations* of the nineteenth-century Russian philosopher Vladimir Solovyov—which Milosz regards as largely science fiction—it nevertheless contains several useful comments on the genre as a whole. Some of these are irritatingly commonplace: "The classic writer in this vein was Jules Verne," he proclaims (15), and proceeds on the assumption that science fiction always takes place in the future and that it always concerns technological transformation of some kind. "We lack a term that would also include such novels as those by H.G. Wells, Aldous Huxley, or George Orwell," Milosz complains, "so perhaps we are forced to speak of science fiction in a broader sense as well" (15–16). Then: "Though most science fiction is no more than vulgar trash, the genre seems to be increasingly victorious in its competition with the so-called contemporary novel" (16).

For any of us who have labored long in the science fiction wars of academe, there is a barely resistable urge to shout "Aha!" at such a statement, and mutter fatuously under our breath that he's a *Nobel Prize Winner*, by golly! And then we file away this bit of information for possible future use in a letter to the editor the next time the book review department of *Harper's* or *The Atlantic* decides to unload the year's pile of unsolicited science fiction review copies by assigning an essay to a sharp-tongued critic whose mission will be to dispose of the genre once and for all in the kind of scathing overview these magazines have been publishing since Bernard de Voto started the tradition in 1939. Milosz or no Milosz, we won't stop these

Criticism Fiction : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
