## **Drawing Out The Man The Vmi Story:**

Drawing Out the Man Henry A. Wise, 1978      **Women in the Barracks** Philippa Strum, 2002-04-24 In June 2001 there was a decidedly new look to the graduating class at Virginia Military Institute For the first time ever the line of graduates who received their degrees at the West Point of the South included women who had spent four years at VMI For 150 years VMI had operated as a revered state funded institution an amalgam of Southern history military tradition and male bonding rituals and throughout that long history no one had ever questioned the fact that only males were admitted Then in 1989 a female applicant complained of discrimination to the Justice Department which brought suit the following year to integrate women into VMI In a book that poses serious questions about equal rights in America Philippa Strum traces the origins of this landmark case back to VMI s founding its evolution over fifteen decades and through competing notions about women s proper place Unlike most works on women in military institutions this one also provides a complete legal history from the initial complaint to final resolution in *United States v Virginia* and shows how the Supreme Court s ruling against VMI reflected changing societal ideas about gender roles At the heart of the VMI case was the rat line a ritualized form of hazing geared toward instilling male solidarity VMI claimed that its system of toughening individuals for leadership was even more stringent than military service and that the system would be destroyed if the Institute were forced to accommodate women Strum interviewed lawyers from Justice and VMI heads of concerned women s groups and VMI administrators faculty and cadets to reconstruct the arguments in this important case She was granted interviews with both Justice Ginsburg author of the majority opinion and Justice Scalia the lone dissenter on the bench and meticulously analyzes both viewpoints She shows how Ginsburg s opinion not only articulated a new constitutional standard for institutions accused of gender discrimination but also represented the culmination of gender equality litigation in the twentieth century *Women in the Barracks* is a case study that combines both legal and cultural history reviewing the long history of male elitism in the military as it explores how new ideas about gender equality have developed in the United States It is an engrossing story of change versus tradition clear and accessible for general readers yet highly instructive and valuable for students and scholars Now as questions continue to loom concerning the role of state funding for single sex education Strum s book squarely addresses competing notions of women s place and capabilities in American society

**Edward M. Almond and the US Army** Michael E. Lynch, 2019-10-15 This study presents a comprehensive look at a complex man who exhibited an unfaltering commitment to the military and to his soldiers but whose career was marked by controversy As a senior Army officer in World Wars I and II Lt Gen Edward M Almond lived by the adage that units don t fail leaders do He was chosen to command the 92nd Infantry Division one of only two African American divisions to see combat during WWII but when the infantry performed poorly in Italy in 1944 1945 he asserted that it was due to their inferiority as a race and not their maltreatment by a separate but unequal society He would later command the X Corps during the Inchon invasion that changed the course of the Korean War

but his accomplishments would be overshadowed by his abrasive personality and tactical mistakes This book addresses how Almond s early education at the Virginia Military Institute with its strong Confederate and military influences shaped his military prowess Presented is a thorough assessment of Almond s military record how he garnered respect for his aggressiveness courage in combat strong dedication and leadership and how he was affected by the loss of his son and son in law in combat during WWII Following the war Almond would return to the US to assume command of the US Army War College but would find himself unprepared for a changing world This volume asserts that since his death his bigoted views have come to dominate his place in history and undermine his military achievements

**Engineering Manhood** Jonson Miller,2020-10-01 It is not an accident that American engineering is so disproportionately male and white it took and takes work to create and sustain this situation **Engineering Manhood Race and the Antebellum Virginia Military Institute** examines the process by which engineers of the antebellum Virginia Military Institute cultivated whiteness manhood and other intersecting identities as essential to an engineering professional identity VMI opened in 1839 to provide one of the earliest and most thorough engineering educations available in antebellum America The officers of the school saw engineering work as intimately linked to being a particular type of person one that excluded women or black men This particular white manhood they crafted drew upon a growing middle class culture These precedents impacted engineering education broadly in this country and we continue to see their legacy today
