## **Dr Franklins Island:**

Dr Franklin's Island Ann Halam,2010-12-30 What s it like to see your friend transformed into a raven before your very eyes and to know it s your turn next How does it feel to morph into a manta ray or slide into the body of a snake This is what happens to Miranda Semi and Arnie three friends who are the sole survivors of a plane crash They find themselves on a tropical island of azure waters and white sands But beyond the palm fringed beaches lies the hospital run by the sinister Dr Franklin and the three teenagers are about to become his next patients Perfect candidates for his experiments in genetic engineering A horrifying fascinating story that is Ann Halam s most unusual and challenging novel so far **Dr. Franklin's Island** Ann Halam,2003-08-01 When their plane crashes over the Pacific Ocean three science students are left stranded on a tropical island and then imprisoned by a doctor who is performing horrifying experiments on humans involving the transfer of animal genes **Extreme Fabulations** Steven Shaviro,2021-08-03 An examination of science fiction narratives and the light they shed on human life the unknowable future and the vagaries of unforeseeable change With this book Steven Shaviro offers a thought experiment He discusses a number of science fiction narratives three novels one novella three short stories and one musical concept album Shaviro not only analyzes these works in detail but also uses them to ask questions about human and more generally biological life about its stubborn insistence and yet fragility about the possibilities and perils of seeking to control it about the aesthetic and social dimensions of human existence in relation to the nonhuman and about the ethical value of human life under conditions of extreme oppression and devastation Shaviro pursues these questions through the medium of science fiction because this form of storytelling offers us a unique way of grappling with issues that deeply and unavoidably concern us but that are intractable to rational argumentation or to empirical verification The future is unavoidably vague and multifarious it stubbornly resists our efforts to know it in advance let alone to guide it or circumscribe it But science fiction takes up this very vagueness and indeterminacy and renders it into the form of a self consciously fictional narrative It gives us characters who experience and respond to the vagaries of unforeseeable change **The Victorian Era in Twenty-First Century Children's and Adolescent Literature and Culture** Sonya Sawyer Fritz,Sara K. Day,2018-01-19 Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people In turn this collection argues contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals particularly as they relate to child and adolescent readers and our experiences of them The essays therein suggest that we struggle now as the Victorians did then to assert a cohesive understanding of young readers and that this lack of cohesion is a result of or a parallel to the disruptions taking place on a larger even global scale *Parabolas of Science Fiction* Brian Atterby,Veronica Hollinger,2013-10-21 Essays about the inherently collaborative nature of science fiction As a geometric term parabola suggests a narrative trajectory or story arc In science fiction parabolas take us from the known to the unknown More concrete than themes more complex than

motifs parables are combinations of meaningful setting character and action that lend themselves to endless redefinition and jazzlike improvisation The fourteen original essays in this collection explore how the field of science fiction has developed as a complex of repetitions influences arguments and broad conversations This particular feature of the genre has been the source of much critical commentary most notably through growing interest in the sf megatext a continually expanding archive of shared images situations plots characters settings and themes found in science fiction across media Contributors include Jane Donawerth Terry Dowling L Timmel Duchamp Rachel Haywood Ferreira Pawel Frelik David M Higgins Amy J Ransom John Rieder Nicholas Ruddick Graham Sleight Gary K Wolfe and Lisa Yaszek *The Victorian Period in Twenty-First Century Children's and Adolescent Literature and Culture* Sara K.
