Abruzzo E Molise:

Abruzzo Marialuce Latini,2020-06-19 A complete guide in text and images to discovering Abruzzo English coordinated by Angela Arnone Mundunur: A Mountain Village Under the Spell of South Italy Michele Antonio Di Marco,2020-03-01

Montenero Val Cocchiara is usually referred to simply as Montenero or Mundunur in the local dialect Montenero is a typical mountain village on the border of the Abruzzo and Molise regions but it is more than that Its history was tinted by contacts with numerous powerful groups over many centuries The village and its people prove to be unique but they also are highly imbued with elements common to all in South Italy Of course it is the hope of the author that anyone with roots in South Italy will benefit from reading this book However his much greater aspiration is that others will equally enjoy the story of Montenero as a metaphor of their own ancestral village or town regardless of country or even see the village as a microcosm of the world where the forces of history and culture forge the character of people *The Other Italy* Hermann W.

Haller,1999-01-01 Italy possesses two literary canons one in the Tuscan language and the other made up of the various dialects of its many regions *The Other Italy* presents for the first time an overview of the principal authors and texts of Italy s literary canon in dialect It highlights the cultivated dialect poetry drama and narrative prose since the codification of the Tuscan literary language in the early sixteenth century when writing in dialect became a deliberate and conscious alternative to the official literary standard The book offers a panorama of the literary dialects of Italy over five centuries and across the country s regions shedding light on a profoundly plurilingual and polycentric civilization As a guide to reading and research it provides a compendium of literary sources in dialect arranged by region and accompanied by syntheses of regional traditions with selected textual illustrations A work of extraordinary importance *The Other Italy* was awarded the Modern Language Association of America s Aldo and Jean Scaglione Publication Award for a Manuscript in Italian Literary Studies It will serve scholars as an indispensable resource book for years to come **From Safin to Roman: Cultural Change and**

Hybridization in Central Adriatic Italy Oliva Menozzi,2024-06-06 The Central Adriatic Apennines roughly modern Abruzzo was occupied in antiquity by Italic populations variously termed Sabelli Sabellics or Sabellians The region in general has received little scholarly attention internationally compared with Tyrrhenian Italy although the last three decades have been very rich in excavations and finds

The Peoples of Ancient Italy Gary D. Farney, Guy Bradley,2017-11-20 Although there are many studies of certain individual ancient Italic groups e g the Etruscans Gauls and Latins there is no work that takes a comprehensive view of each of them the famous and the less well known that existed in Iron Age and Roman Italy Moreover many previous studies have focused only on the material evidence for these groups or on what the literary sources have to say about them This handbook is conceived of as a resource for archaeologists historians philologists and other scholars interested in finding out more about Italic groups from the earliest period they are detectable early Iron Age in most instances down to the time when they begin to assimilate into the Roman state in the late Republican or early Imperial period

As such it will endeavor to include both archaeological and historical perspectives on each group with contributions from the best known or up and coming archaeologists and historians for these peoples and topics The language of the volume is English but scholars from around the world have contributed to it This volume covers the ancient peoples of Italy more comprehensively in individual chapters and it is also distinct because it has a thematic section Heritage at Risk Marcello Balzani, Federica Maietti, Fabiana Raco, 2025-08-18 It is assumed that the impact of natural and man made hazards on society in terms of damage is constantly increasing In order to reduce the levels of potential disaster and to assess which policies and measures can generate positive impacts it is necessary to make a careful comparison of experiences at an international scale in risk mitigation and management The international scenario of calamitous events that still characterise all areas of the globe is deepened together with the experiences of the earthquakes and floods that have affected the Pianura Padana area and the central regions of Italy in the last ten years included in the training project Academy After the Damages Following the results published in the first volume Built Heritage in Post Disaster Scenarios Heritage at Risk aims to continue the debate on recent innovations and advances in risk management to contribute to the definition of strategies and the implementation of increasingly effective tools in terms of risk mitigation The volume provides insights into the dynamics and negative effects of natural and man made hazards i e earthquakes fires floods droughts and volcanic eruptions including more updated approaches to deal with post disaster phases The book also offers tools to deal with possible international crisis scenarios and mitigate the social impact of vulnerabilities through risk reduction Heritage at Risk is aimed at public administration managers government agency representatives international organizations researchers and professionals in architecture engineering and earth science The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
