Academic Instincts:

Academic Instincts Marjorie Garber, 2009-01-10 In this lively and provocative book cultural critic Marjorie Garber who has written on topics as different as Shakespeare dogs cross dressing and real estate explores the pleasures and pitfalls of the academic life *Academic Instincts* discusses three of the perennial issues that have surfaced in recent debates about the humanities the relation between amateurs and professionals the relation between one academic discipline and another and the relation between jargon and plain language Rather than merely taking sides the book explores the ways in which such debates are essential to intellectual life Garber argues that the very things deplored or defended in discussions of the humanities cannot be either eliminated or endorsed because the discussion itself is what gives humanistic thought its vitality Written in spirited and vivid prose and full of telling detail drawn both from the history of scholarship and from the daily press *Academic Instincts* is a book by a well known Shakespeare scholar and prize winning teacher who offers analysis rather than polemic to explain why today s teachers and scholars are at once breaking new ground and treading familiar paths It opens the door to an important nationwide and worldwide conversation about the reorganization of knowledge and the categories in and through which we teach the humanities And it does so in a spirit both generous and optimistic about the present and the future of these disciplines

Security Expertise Trine Villumsen Berling, Christian Bueger, 2015-04-10 This volume brings together scholars

from different fields to explore the power consequences and everyday practices of security expertise Expertise mediates between different forms of knowledge scientific and technological legal economic and political knowledge This book offers the first systematic study of security expertise and opens up a productive dialogue between science and technology studies and security studies to investigate the character and consequences of this expertise In security theory the study of expertise is crucial to understanding whose knowledge informs security making and to reflect on the impact and responsibility of security analysis In science and technology studies the study of security politics adds a challenging new case to the agenda of research on expertise and policy The contributors investigate cases such as academic security studies security think tanks the collaboration between science anthropology and the military transnational terrorism and the ethical consequences of security expertise Together they challenge our understanding of how expertise works and what consequences it has for security politics and international relations This book will be of particular interest to students of critical security studies sociology science and technology studies and IR security studies in general Literary Activism Amit Chaudhuri,2018-02-15

Literary Activism revisits and interrogates and looks to renew the force of the literary It s a movement that emerges from a radically altered landscape for both publishing and academia where what Amit Chaudhuri calls market activism has effected changes on language on the measuring of value on the concept of influence in ways we struggle to recognise Encompassing the perspectives of the writer critic translator academic and publisher the essays in this volume follow no single line of enquiry Rather they offer the beginnings of an analysis of the literary world at a certain moment of globalisation while also questioning whether a literary world exists and if it does where its boundaries lie The collection moves in many directions from Arun Kolatkar and his near heroic refusal of both marketplace and reputation to Derek Attridge who argues for a form of affirmative criticism which positions the critic as a lover of the text while from Amsterdam Dubravka Ugre i reflects on life in a literary out of nation zone adrift in a territory where intellectual protest has been stripped of ideological impetus and subsumed by the voraciousness of the market Taken together these essays initiate a series of conversations about who reads what and why about the practice of writing and criticism at this particular contemporary moment and about the activities and institutions that shape an understanding of what literature is and what it can do **The Harvard Monthly** ,1903

English Prose Sir Henry Craik,1894 This collection shows the growth and development of English prose by extracts from the principal and most characteristic writers **Journal and Proceedings** Royal Institute of Chemistry,1909
