Crisis Management And Decision Making Simulation Oriented Scenarios:

Crisis Management and Decision Making Uriel Rosenthal, Bert Pijenburg, 2012-12-06 *MANAGING CRISES* Uriel Rosenthal, Arjen Boin, Louise K. Comfort, 2001-01-01 In this book the editors with 25 notable contributors expand the knowledge of crisis management focusing on case studies of high profile events that have occurred in recent history Part One of the text aims at theoretical development through empirical case studies and also postulates a crisis typology and charts specific theoretical and administrative challenges The case bank which comprises the bulk of the book is presented in four additional sections The first deals with the development of crises and compares the infamous Watts riots with the 1992 L A riots It also analyzes the fragmented and complex international environment that allowed the safe area in Bosnia to be overrun by Bosnian Serbs in 1995 The final chapter chronicles the incredible human costs of mismanaged crisis in the Rwanda massacres in 1994 The second section explores the many decisional dilemmas that confront crisis managers Cases include the fire at the Piper Alpha oil rig the 1999 Turkish earthquakes the Eindhoven Holland plane crash and crisis management of the Mad Cow epidemic disease in the U K The third section explores the long term dimensions of crises and crisis management and particularly the development of national traumas such as the assassination of Sweden s Prime Minister Olaf Palme in 1986 the 1992 Amsterdam air crash and the TWA flight 800 disaster in 1996 The final section shifts focus to future scenarios such as speculative information technology disasters potentially devastating viral epidemics deteriorating environmental and societal conditions in Russia the southwest U S coming water shortage and the outlook for Japan one of the world s most disaster prone countries Summarizing the research findings of the past decade the authors describe patterns in the paths toward crises the dilemmas and coping mechanisms that emerge during the thick of crisis and very importantly the pathways that lead away from crisis

Crisis Policymaking David Connery, 2010-07-01 East Timor s violent transition to independence which began early in 1999 presented the Australian Government with a significant foreign policy crisis This crisis was not sudden totally unexpected or ultimately threatening to Australia s survival But the crisis consumed the attention of Australian leaders saw significant national and international resources employed and led to the largest operational deployment for the Australian Defence Force since the Vietnam War This crisis also created a significant rupture in the hitherto carefully managed relationships between Australia and its important neighbor Indonesia The events of September 1999 ultimately led to the birth of a new nation and the deaths of many people who might have otherwise expected to enjoy that independence In this major study David Connery examines how the Australian Government at the political and bureaucratic levels developed and managed national security policy in the face of this crisis The events and the policymaking processes that both led and followed are reconstructed using sixty interviews with key participants This study identifies certain characteristics of crisis policymaking in Australia that include a dominant executive secrecy external actors and complexity

Advances in Human Factors and Systems Interaction Isabel L. Nunes, 2017-06-30 This book reports

on cutting edge research into innovative system interfaces emphasizing both lifecycle development and human technology interaction especially in virtual augmented and mixed reality systems It describes advanced methodologies and tools for evaluating and improving interface usability and discusses new models as well as case studies and good practices The book addresses the human hardware and software factors in the process of developing interfaces for optimizing total system performance particularly innovative computing technologies for teams dealing with dynamic environments while minimizing total ownership costs It also highlights the forces currently shaping the nature of computing and systems including the need for decreasing hardware costs the importance of portability which translates to the modern tendency toward hardware miniaturization and technologies for reducing power requirements the necessity of a better assimilation of computation in the environment and social concerns regarding access to computers and systems for people with special needs The book which is based on the AHFE 2017 International Conference on Human Factors and System Interactions held on July 17 21 2017 in Los Angeles California USA offers a timely survey and practice oriented guide for systems interface users and developers alike
