Critical Heidegger:

Critical Heidegger Christopher E. Macann, 1996 *Critical Heidegger* brings together a selection of the best work on Martin Heidegger from a number of key commentators working in Europe These new and classic essays for the most part translated from German and French originals are an essential guide to the current European reception of Heidegger and make available essays that have had considerable impact on English language Heidegger studies Essays in this collection Marlene Zarader The mirror with the triple reflection Franco Volpi Dasein and Praxis Aristotle Jean Luc Marion Heidegger on Descartes Christopher Macann Heidegger s Kant Interpretation Michel Haar Critical Remarks on the Heideggerian Reading of Nietzsche Maria Vilella Petit Heidegger s Conception of Space Francoise Dastur The ekstasico horizontal constitution of temporality F W von Herrmann Way and Method in Philosophy Samuel Ijsseling The End of Philosophy as the Commencement of Thinking Otto Pogglar Does the saving power also grow Heidegger s last paths Ernst Tugendhat Heidegger s Idea of Truth Karl Otto Apel Wittgenstein and Heidegger

Heidegger Hubert L. Dreyfuss, 1992 Martin Heidegger is known for rethinking the western understanding of what it means to be a thing a person an institution etc Although this may seem to be an abstract specialized philosophical project it has turned out to have profound implications for many aspects of contemporary life The list of those whom Heidegger s work has decisively influenced reads like a roster of the major thinkers of the 20th century Jean Paul Sartre Maurice Merleau Ponty Jurgen Habermas Jacques Derrida Michel Foucault Richard Rorty Charles Taylor and Pierre Bourdieu This book includes pieces by the above authors who have written essays on Heidegger s philosophy as well as the best examples of the work of a new generation who have been attempting to put Heidegger s thought into an idiomatic English which captures the phenomena to which Heidegger sought to call our attention and to draw out the implications of Heidegger s work for the current philosophical scene These essays show how Heidegger opened up new approaches to central questions in the philosophy of language mind action and technology

Interpreting Heidegger Daniel O. Dahlstrom, 2011-03-17 This volume of essays by internationally prominent scholars interprets the full range of Heidegger s thought and major critical interpretations of it It explores such central themes as hermeneutics facticity and Ereignis conscience in Being and Time freedom in the writings of his period of transition from fundamental ontology and his mature criticisms of metaphysics and ontotheology The volume also examines Heidegger s interpretations of other authors the philosophers Aristotle Kant and Nietzsche and the poets Rilke Trakl and George A final group of essays interprets the critical reception of Heidegger s thought both in the analytic tradition Ryle Carnap Rorty and Dreyfus and in France Derrida and Levinas This rich and wide ranging collection will appeal to all who are interested in the themes the development and the context of Heidegger s philosophical thought

Heidegger Peter Trawny, 2019-01-15 Martin Heidegger is one of the most influential figures of twentieth century philosophy but his reputation was tainted by his associations with Nazism The posthumous publication of the Black Notebooks which reveal the shocking extent of Heidegger

s anti-Semitism has only cast further doubt on his work. Now more than ever a new introduction to Heidegger is needed to reassess his work and legacy. This book by the world leading Heidegger scholar Peter Trawny is the first introduction to take into account the new material made available by the explosive publication of the Black Notebooks. Seeking neither to condemn nor excuse Heidegger's views, Trawny directly confronts and elucidates the most problematic aspects of his thought. At the same time he provides a comprehensive survey of Heidegger's development from his early writings on phenomenology and his magnum opus *Being and Time* to his later writings on poetry and technology. Trawny captures the extraordinary significance and breadth of fifty years of philosophical production all against the backdrop of the tumultuous events of the twentieth century. This concise introduction will be required reading for the many students and scholars in philosophy and critical theory who study Heidegger and it will be of great interest to general readers who want to know more about one of the major figures of contemporary philosophy.

Heidegger's Being and Time Richard Polt, 2005-09-15 Heidegger's *Being and Time* Critical Essays provides a variety of recent studies of Heidegger's most important work. Twelve prominent scholars representing diverse nationalities, generations, and interpretive approaches deal with general methodological and ontological questions, particular issues in Heidegger's text, and the relation between *Being and Time* and Heidegger's later thought. All of the essays presented in this volume were never before available in an English language anthology. Two of the essays have never before been published in any language. Dreyfus and Guignon, three of the essays have never been published in English before. Grondin, Kisiel, and Thom, and two of the essays provide previews of works in progress by major scholars. Dreyfus and Kisiel.

Heidegger's Being and Time Aaron James Wendland, Tobias Keiling, 2025-06-30 Martin Heidegger's *Being and Time*, published in 1927, is widely regarded as his most important work and it has had a profound influence on twentieth-century philosophy. This Critical Guide draws on recently translated and published primary sources as well as the latest developments in Heidegger scholarship to provide a series of in-depth studies of this influential text. Twelve newly written essays examine the unity of *Being and Time*, the nature of human communication, truth as a catalyst of cultural transformation, feminist approaches to *Being and Time*, the essence of authenticity, curiosity as an epistemic vice, the nature of rationality, realism and idealism, the ontological difference, the origin of time, the possibility of death, and the failure of the *Being and Time* project. The volume will be particularly valuable to students and scholars interested in phenomenology, existentialism, hermeneutics, metaphysics, epistemology, feminism, and ethics.

Foucault and Heidegger Alan Milchman, Alan Rosenberg, 2003 An essential consideration of these two closely related and influential figures, Michel Foucault and Martin Heidegger, are two of the most important intellectual figures of the twentieth century and yet there are significant, largely unexplored questions about the relationship between their projects. Foucault and Heidegger stages a crucial, critical encounter between these two thinkers. In doing so, it clarifies not only the complexities of the Heidegger-Foucault relationship but also their relevance to questions about truth and nihilism, acquiescence and resistance, and technology and agency that

are central to debates in contemporary thought These essays examine topics ranging from Heidegger's and Foucault's intellectual forebears to their respective understanding of the Enlightenment modernity and technology to their conceptions of power and the political *Heidegger on Death* Paul Edwards, 1979 **Martin Heidegger** Christopher Macann, 1992

The Heidegger Controversy Richard Wolin, 1991

The Doctrine of Judgment in Psychologism: A

Critical-Positive Contribution to Logic Martin Heidegger, 2024-05-09 This edition contains a modern afterword by the Translator a timeline of Heidegger's life and works a philosophic index of core Heideggerian concepts and a guide for Existentialist terminology across 19th and 20th century Existentialists This translation is designed for readability and accessibility to Heidegger's enigmatic and dense philosophy Complex and specific philosophic terms are translated as literally as possible and academic footnotes have been removed to ensure easy reading Completed in 1913 as Heidegger's doctoral dissertation at the University of Freiburg this work was published in 1914 under the German title *Die lehre vom urteil im psychologismus Ein kritisch positiver Beitrag zur Logik* by the academic press of Karl J Tr bner At the time Heidegger was a 24 year old scholar transitioning from Catholic theology to philosophy studying under Neo Scholastic thinker Heinrich Rickert The text emerged amid heated debates in German academia over psychologism the view that logic derives from empirical psychology which had been critiqued by Edmund Husserl in his *Logical Investigations* 1901 Heidegger's dissertation reflects Freiburg's intellectual climate where Neo Kantianism Scholasticism and early phenomenology intersected While Husserl had not yet arrived at Freiburg he would join in 1916 Heidegger's critique of psychologism aligns with Husserl's anti psychologism but is filtered through his training in medieval logic and Aristotelian metaphysics The dissertation argues that psychologism's error lies in conflating the psychological act of judging with the logical structure of judgment itself Heidegger draws on medieval distinctions like *logica docens* theoretical logic to assert that truth transcends individual minds a position rooted in his Scholastic influences but hinting at his later focus on Being Though still framed within traditional metaphysics the work reveals his early resistance to reducing philosophy to subjective experience a stance that would evolve into his critique of Cartesian subjectivity in *Being and Time* 1927 Notably Heidegger's later rejection of Scholasticism is foreshadowed here while he employs medieval categories he strains against their static formalism seeking a deeper ground for truth This text transitional and methodologically cautious captures a thinker poised between the theological rigor of his past and the existential phenomenological turn of his future Here Heidegger defends metaphysics He argues that transcendental logic can't be dismissed by rationalism as this would destroy its own foundation and paralyze judgment and cognition This work is a comprehensive exploration of the intersection between psychology and logic focusing on the concept of judgment in the context of psychologism It begins with a preface acknowledging influences and inspirations followed by an introduction discussing the impact of psychological research on various fields including logic The paper challenges the psychological interpretation of logic and argues for a transcendental logical view The main body of

the paper is divided into several sections each examining different aspects and theories related to judgment in the context of psychologism It includes critical assessments of the theories of notable philosophers such as Wilhelm Wundt and Heinrich Maier analyzing their approaches to judgment its structure and its various forms The document explores the nature of judgment its relation to perception and the psychological underpinnings of logical thought Heidegger argues for the need to make a clear distinction between psychological and transcendental methods in logic arguing for an independent and intrinsic understanding of logic beyond psychological interpretations

Heidegger's Philosophy of Being Herman

Philipse,2021-05-11 This scrupulously researched and rigorously argued book is the first to interpret and evaluate the central topic of Martin Heidegger s philosophy his celebrated Question of Being in the context of the full range of Heidegger s thought With this comprehensive approach Herman Philipse distinguishes in unprecedented ways the center from the periphery the essential from the incidental in Heidegger s philosophy Among other achievements this allows him to shed new light on the controversial relationship between Heidegger s life and thought in particular the connections between his philosophy and his involvement with Nazism Philipse begins by explaining which problems an interpretation of Heidegger s question of being should solve and he specifies which type of interpretation is the best basis for an evaluation of Heidegger s thought He then identifies various strands or leitmotifs in Heidegger s idea of being and shows how these strands hang together in the philosopher s work In doing so Philipse offers new insights into Heidegger s views on such subjects as human existence authenticity logic and language and into his readings of such philosophers as Aristotle Kant Hegel and Nietzsche Philipse then integrates into his interpretation of Heidegger s overall theory the latest scholarship about the philosopher s engagement with Nazism Finally Philipse examines the fundamental structures of Heidegger s philosophy and assesses whether Heidegger s views are true probable or possess some other epistemic or existential value As the most thorough interpretation of Heidegger s theory of being now available this work represents a new phase in the vigorous debate about the philosopher s life and works

Heidegger Greg Walker,2007-06-01 *Critical Studies on Heidegger* David Michael

Kleinberg-Levin,2023-02-01 In these boldly original studies Heidegger s thought is carried critically and constructively beyond its original limitations re presenting his project in terms of an emerging body of understanding making sense of this project not only in its historical cultural significance but also in its bearing on the emergence of future possibilities

Continuing Heidegger s commitment to a way of thinking that is formed from reflectively lived experience David Michael Kleinberg Levin suggests what can be learned regarding the character of our typical and habitual ways of looking and seeing hearing and listening and touching holding handling and gesturing The body of ontological understanding consequently emerges as we learn how to take responsibility for the meaning of being in forming and developing the character of our relationship to all the beings in our world In this original reading of Heidegger s thought Kleinberg Levin suggests what his project could mean for an ethical way of life

A Heidegger Critique Roger Waterhouse,1981 **The Existentialists**

Charles Guignon,2004-10-26 This volume brings together for the first time some of the most helpful and insightful essays on the four most influential and discussed philosophers in the history of existentialism Kierkegaard Nietzsche Heidegger and Sartre The contributors write on such topics as Kierkegaard s knight of faith and his diagnosis of the present age Nietzsche s view of morality and self creation Heidegger s accounts of worldhood and authenticity and Sartre s ontology ethics and conception of the cogito The essays have been selected for their higher level of scholarship and for their ability to illuminate various aspects of their subject s work The volume is enhanced by the editor s introduction and extensive bibliography to aid further study *Heidegger's Way of Thought*

Theodore Kisiel,2002-06-01 One of the most eminent Heidegger scholars of our time Theodore Kisiel has found worldwide critical acclaim his particular strength being to set Heidegger s thinking in the context of his life time and the history of ideas This volume brings together Kisiel s most important critical and interpretative essays which can be regarded as a succession of signposts enabling the reader to follow Heidegger in his often difficult path of thinking At the same time it is a companion to the author s key work *The Genesis of Heidegger s Being and Time* 1993

Heidegger S.J. McGrath,2008-08-20 *Introducing Heidegger Phenomenology Ontology Axiology Theology Why I am not a Heideggerian*

The Existentialists Charles Guignon,2004-10-26 This volume brings together for the first time some of the most helpful and insightful essays on the four most influential and discussed philosophers in the history of existentialism Kierkegaard Nietzsche Heidegger and Sartre The contributors write on such topics as Kierkegaard s knight of faith and his diagnosis of the present age Nietzsche s view of morality and self creation Heidegger s accounts of worldhood and authenticity and Sartre s ontology ethics and conception of the cogito The essays have been selected for their higher level of scholarship and for their ability to illuminate various aspects of their subject s work The volume is enhanced by the editor s introduction and extensive bibliography to aid further study *Heidegger on Death*

Professor George Pattison,2013-05-28 This book examines the question of death in the light of Heidegger s paradigmatic discussion in *Being and Time* Although Heidegger s own treatment deliberately refrains from engaging theological perspectives George Pattison suggests that these not only serve to bring out problematic elements in his own approach but also point to the larger human or anthropological issues in play Pattison reveals where and how Heidegger and theology part ways but also how Heidegger can helpfully challenge theology to rethink one of its own fundamental questions human beings relation to their death and the meaning of death in their religious lives

Critical Heidegger Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Critical Heidegger free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Critical Heidegger free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Critical Heidegger free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers

voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Critical Heidegger. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Critical Heidegger any PDF files. With these platforms, the world of PDF downloads is just a click away.
