Prayers to Fulfill Your Destiny's Dreams Dr. D.K. Olukoya, 2002-01-01

Freud's Other Theory of Psychoanalysis Ahmed Fayek, 2013 Freud's Other Theory of Psychoanalysis The Replacement for the Indelible Theory of Catharsis argues that Freud's familiar theory of psychoanalysis is an elaboration of his catharsis theory Although it changed from repression of painful memories to the repression of sexuality to repression of infantile sexuality to repressing of the Id it still remained structurally a theory of the repression of objectionable urges Even in Freud's desperate attempt to replace it with a psychology of the ego the repression of the objectionable urges or the Id remained the source of psychopathology This theory had an indelible effect on Freud and remained the prototype of almost all theories of contemporary psychoanalysis However when Freud changed his method of dealing with his patients to listening to their associations he discovered the workings of the primary process the representation in the mind of the endosomatic stimuli and the manner in which the primary and the secondary processes entwine to form both the normal and abnormal psychical products Another theory of psychoanalysis came out of those core observations and Freud was able to give psychoanalysis a central position in western culture as a whole and a significant place in the study and treatment of mental disorders Freud's unstated discoveries had all the elements of another full theory it was the theory that gave psychoanalysis its outstanding status However he did not articulate it as a distinct theory that could replace the catharsis theory This tacit theory is a theory that does not explain psychopathology in terms of repression of objectionable urges but explicates the manners of the entwinement of the primary and secondary processes that create the healthy and the psychopathological conditions It is a comprehensive theory of psychoanalysis that has applications in almost all psychical matters one of which is clinical The replacement theory is not another theory like the ones offered by the contemporary schools It is implicit in the Freudian text it is a Freudian replacement for a popular but flawed Freudian theory
