Teacher as Activator of Learning Gayle H. Gregory, 2016-02-11 Flip the Switch How to Get Students Into Learning Mode Now In his well known meta analysis John Hattie suggests that facilitating learning is not as effective or powerful as activating learning In this book Gayle Gregory shows you how to facilitate better and deeper learning Packed with practical strategies that teachers can use every day to increase student achievement you will also discover what educational neuroscience says about nurturing a growth mindset and creating classrooms that support and encourage students to take risks and fail forward Learn how to Foster student dialogue and thinking Orchestrate productive reflective flexible student groups Develop respectful learning relationships between and among students and teachers Teacher competencies and clarity related to student goals and success criteria with quality feedback are essential for student success This resource will enrich learning environments for students and increase the chance of success for all In going from teachers as fount of knowledge to teacher as facilitator the field has overcorrected Gayle Gregory corrects all that with a comprehensive and deep portrayal of the need for teachers to be activators of learning in partnership with students Based on equal measure of research and practice Gregory gives is a compelling set of ideas and tools to maximize student learning and engagement Read it and hit the ground running Michael Fullan Professor Emeritus OISE University of Toronto

Individual's Mechanics, Movement and Kinematics

Post-Stroke Yih-Kuen Jan , Veronica Cimolin, 2024-06-12 Disability after stroke is a major burden on society due to its high incidence and prevalence Among the priorities of rehabilitation programs stroke rehabilitation aims to regain independence and improve patients quality of life Dynamic balance falls prevention and upper limb recovery are essential features for the clinical management of hemiparetic patients To optimize movement recovery after stroke it is essential to select multilevel outcome measures for interpretation of motor recovery and clinical decision making In this context the assessment of movement by means of quantitative movement analysis in hemiparetic post stroke patients is key to planning rehabilitative intervention Kinematic analysis facilitates interpreting the extent and mechanisms of motor restoration and it has been increasingly applied in neurological research
