Bertolt Brecht's Art Of Dissemblance:

Bertolt Brecht's Art of Dissemblance Tony Calabro, 1990 **Bertolt Brecht's Art of Dissemblance** Tony Calabro, 1990

The Many Lives of Galileo Dougal McNeill, 2005 *The Many Lives of Galileo* is a Marxist study of the development of Bertolt Brecht's great play *Galileo* on the English stage. Tracing various translations of Brecht's original and the historical and political moments surrounding these translations, Dougal McNeill examines how across the distances of culture, history, and language *The Life of Galileo* has come to figure so prominently in the life of English language theatre. The translations and productions of *Galileo* by Charles Laughton, Howard Brenton, and David Hare are examined in a method combining close reading with an attention to broader social contexts, with an eye to uncovering their implications for drama in performance. Brecht valued re-creation, re-invention, and re-telling as much as creation itself. In this book, the author applies Brecht's aesthetic to translations of his own work, following Laughton, Brenton, and Hare as they set themselves the task of rewriting Brecht and in the process use him to comment on their own eras.

Edinburgh German Yearbook 5 Laura Bradley, Karen Leeder, 2011-10. While Bertolt Brecht became identified internationally as the cultural figurehead of the GDR, his relationship with the authorities was always complex. This book examines his activities in the GDR and the regime's marginalizing response and posthumous appropriation of his legacy.

Rhetoric in Human Rights Advocacy Richard K. Ghere, 2015-04-22. This book examines the rhetoric of various exemplars who advocate for causes and actions pertaining to human rights in particular contexts. Although some of these exemplars champion human rights, others are human rights antagonists. Simply put, the argument here is that concern for how particular individuals advocate for human rights causes, as well as how antagonists obstruct such initiatives, adds significant value to understanding the successes and failures of human rights efforts in particular cultural and national contexts. On one hand, we can grasp how specific international organizations and actors function to develop norms, for example, the rights of the child, and how rights are subsequently articulated in universal declarations and formal codes. But on the other, it becomes apparent that the actual meaning of those rights mutates when accepted within particular cultures. A complementary facet of this argument relates to the centrality of rhetoric in observing how rights advocates function in practice; specifically, rhetoric focuses upon the art of argumentation and the various strategies and techniques enlisted therein. In that much of the reality surrounding human rights, from the standpoints of advocates and antagonists alike, is fundamentally interpretive, rhetorical or argumentative skill is of vital importance for advocates as competent pragma-dialecticians in presenting the case that a rights ideal can enhance life in a culture predisposed to reject that ideal. This book includes case studies focusing on the rhetoric of the following individuals or groups as either human rights advocates or antagonists: Mary B. Anderson, Rwandan hate radio broadcasters, politicians, and military officials connected with the Kent State University and Tiananmen Square student protest tragedies; Iqbal Masih, Pussy Riot; Lyndon Johnson; Julian Assange; Geert Wilders; Daniel Barenboim; Joe Arpaio; and Lucius Banda.

Staging Strife Magdalena Kazubowski-Houston,2010-07-27 Concerned with traditional power imbalances between researchers and participants contemporary social science has begun using collaborative research as an empowering methodology that involves participants in key decisions Collaborative research is a potentially revolutionary method for studying people and their cultures but does it work in practice *Staging Strife* looks at the limits of this methodology by examining a politically charged theatre performance undertaken with a group of Roma women in Poland

Germanic Notes ,1992 **The Theatre of the Real** Gina Masucci MacKenzie,2008 The Theatre of the Real Yeats Beckett and Sondheim traces the thread of jouissance the simultaneous experience of radical pleasure and pain through three major theatre figures of the twentieth century Gina Masucci MacKenzie s work engages theatrical text and performance in dialogue with the Lacanian Real so as to re envision modern theatre as the cultural site where author actor and audience come into direct contact with personal and collective traumas By showing how a transgressively free subject may be formed through theatrical experience MacKenzie concludes that modern theatre can liberate the individual from the socially constructed self The Theatre of the Real revises views of modern theatre by

demonstrating how it can lead to a collaborative effort required for innovative theatrical work By foregrounding Yeats s dancer plays the author shows how these intimate pieces contribute to the historical development of musical as well as modern theatre Beckett s universal dramas then pave the way for Sondheim s postmodern cacophonies of idea and spirit as they introduce comic abjection into modernism s tragic mode This exciting work from a new author will leave readers with fresh insight to theatrical performance and its necessity in our lives
