From the Ballfield to the Boardroom Brian Goff, 2005-04-30 No one can deny that sports and business are two of the most potent forces in our culture today Sport play and the terms and phrases that define them are engrained in our collective psyche influencing the ways in which we conduct business as a game with rules of engagement tournaments of competition the shame that accompanies defeat and the bragging rights that accrue to the victor The parallels are ubiquitous as the NFL s Bill Parcells stated in a Harvard Business Review article my guess is that the challenges I ve faced are not all that different from the ones that executives deal with every day People are people and the keys to motivating them and getting them to perform to their full potential are pretty much the same whether they re playing on a football field or working in an office From the Ballfield to the Boardroom draws from Brian Goff s

expertise as a managerial economist to shed new light on the sports business connection Using dozens of examples from across the spectrum of professional and college sports he analyzes the ways in which key decisions are made on the playing fields and locker rooms and applies these lessons to the corporate context From the distinctive leadership styles of legendary coaches Tom Landry Vince Lombardi John Wooden and Bobby Knight among others to such culturally significant developments as the racial integration of Major League Baseball and the meteoric rise of NASCAR Goff draws from the world of sports to provide a solid foundation in the managerial arts including assessing risk and uncertainty conducting market and competitive analysis wooing customers fostering an innovative culture managing information and communication flows and resolving labor disputes The result is an incisive look at the sport of business with practical insights for successful management at all levels of your organization **Mind and Body**, 1921 **Summary of Hearings** United States.
