## **Aesthetics Form Emotion:**

**Aesthetics, Form and Emotion** David Pole, 1982      **Aesthetics and Material Beauty** Jennifer A. McMahon, 2013-01-11

In *Aesthetics and Material Beauty* Jennifer A. McMahon develops a new aesthetic theory she terms Critical Aesthetic Realism taking Kantian aesthetics as a starting point and drawing upon contemporary theories of mind from philosophy psychology and cognitive science The creative process does not proceed by a set of rules Yet the fact that its objects can be understood or appreciated by others suggests that the creative process is constrained by principles to which others have access According to her update of Kantian aesthetics beauty is grounded in indeterminate yet systematic principles of perception and cognition However Kant's aesthetic theory rested on a notion of indeterminacy whose consequences for understanding the nature of art were implausible McMahon conceptualizes indeterminacy in terms of contemporary philosophical psychological and computational theories of mind In doing so she develops an aesthetic theory that reconciles the apparent dichotomies which stem from the tension between the determinacy of communication and the indeterminacy of creativity Dichotomies such as universality and subjectivity objectivity and autonomy cognitivism and non cognitivism and truth and beauty are revealed as complementary features of an aesthetic judgment

**Introducing Aesthetics** David E. Fenner, 2003-09-30 This concise yet comprehensive introduction to the discipline of western aesthetical philosophy is focused directly on the central questions of aesthetics Fenner arranges his analysis around four general themes Experiences Objects and Events Meaning and Judgment that progress from issues of everyday experience to subjects of greater subtlety Within these broader themes Fenner explores such issues as The Aesthetic Attitude Defining Art and Reviewing Art Criticism Although a historical organization is employed wherever a particular movement unfolds from earlier movements the text's main organization is not motivated by an academic or historical treatment of the various topics Instead the topics themselves are of primary concern in such a way that readers will come away with a complete overview of the canon of this highly significant area of western philosophy

perception neuro aesthetics and cultural studies highlighting the socio cultural and political context informing how humans perceive themselves and the world around them Developing since the 1990s the aesthetic approach has responded to debates in the study of religion in particular striving to overcome biased categories that confined religion either to texts and abstract beliefs or to an indisputable sui generis mode of experience This volume documents what has been achieved to date its significance for the study of religion and for interdisciplinary scholarship
