Siefken, Hilmar Rommetvedt, 2021-08-19 This book sheds new light on the often shadowy but essential role of committees which exist in modern parliaments around the globe and it questions the conventional notion that the real work of parliament happens in committees Renowned country specialists take a close look at what goes on in committees and how it matters for policy making While committees are seen as the central place where policy is made they often hold their sessions closed to the public and calls for transparency are growing To understand this black box it is necessary to look within but also beyond the walls of the committee rooms and parliament buildings Bringing together formal and informal aspects rules and practices shows that committees are not a paradise of policy making They have great relevance nonetheless as crystallization points in the policy networks as drivers for division of labor and for socialization and the integration of MPs The new insights presented in this book will be of interest to scholars students and professionals in parliamentary affairs legislative studies government and comparative politics They are also relevant for political analysts journalists and policymakers
