

HOW TO READ A SAFETY DATA SHEET

OSHA Brief:

Requires that the chemical manufacturer, distributor, or importer provide Safety Data Sheets (SDS) for hazardous chemicals or materials. The SDS is a standardized form that communicates information on hazard identification, physical and chemical properties, health and environmental effects, and safety and handling information. The SDS is a key document for workers, emergency responders, and the general public. The SDS is a key document for workers, emergency responders, and the general public. The SDS is a key document for workers, emergency responders, and the general public.

The SDS must contain information on the chemical's identification, hazards, composition, safe handling practices, and emergency control measures (e.g., spill and leak response). The SDS is a key document for workers, emergency responders, and the general public. The SDS is a key document for workers, emergency responders, and the general public. The SDS is a key document for workers, emergency responders, and the general public.

The SDS must also contain Sections 12 through 15, to be consistent with the GHS Globally Harmonized System of Classification and Labeling of Chemicals (GHS), but only if the chemical is classified as hazardous under GHS. This information is provided in a description of all 16 sections of the SDS, along with their contents, is presented.

Section 1: Identification

This section identifies the chemical on the SDS as well as the recommended uses. It also provides the recommended container contents of:

- Product identifier used on the label and any other names or synonyms by which the substance is known.
- Name, address, phone number of the manufacturer, distributor, or other responsible party, and emergency phone number.
- Recommended use of the chemical (e.g., as a fertilizer) and any restrictions on use (e.g., for spraying) and any other relevant information.

Section 2: Hazard(s) Identification

This section identifies the hazard(s) of the chemical and appropriate warning labels that must be used with the chemical. The hazard and information consists of:

- The hazard classification of the chemical (e.g., flammable liquid, category 2).
- Hazard statements.
- Pictograms or hazard symbols may be presented as graphical representations of the symbols in black and white or as a description of the name of the symbol (e.g., skull and crossbones, flame).
- Precautionary statements.
- Description of any hazards not otherwise classified.
- For a mixture that contains an ingredient with a known toxicity, a statement of the known acute toxicity (Hazard Code) that this is a total (sum) of the hazard and not based on the individual ingredients.

Section 3: Ingredients Information

This section identifies the chemical composition of the chemical on the SDS, including impurities and stabilizing additives. This section includes information on substances, mixtures, and all chemicals where a trade secret is claimed. The information includes:

- Substances.
- Chemical name and synonyms.
- Chemical Abstracts Service (CAS) number and other unique identifiers.
- Impurities and stabilizing additives, which are themselves classified and which are also included in the chemical mixture.
- Some information is required for substances:
 - The total concentration (i.e., total percentage) of all ingredients which are classified as health hazards and are present above their oral-inhalation limits or are present in a quantity which is above their oral-inhalation limits.
 - The concentration (weight percent) of each ingredient must be specified except in a concentration range which is used in the following situations:
 - When the concentration is not known.
 - When the SDS is used for a group of substantially similar mixtures.
 - A statement that the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret is required.

Section 4: First-Aid Measures

This section describes the most cases that should be given by personnel responding to an individual who has been exposed to the chemical. The required information includes:

- Relevant routes of exposure.
- Necessary first aid measures.
- Most important symptoms or effects, and any special precautionary measures to be taken.
- Recommendations for hospital treatment and special treatment, when appropriate.

Section 5: Fire-Fighting Measures

This section provides recommendations for fighting a fire caused by the chemical. The information includes:

- Recommendations of suitable extinguishing equipment, and information about extinguishing equipment that is not appropriate for a particular situation.
- Details on special hazards or reactions that may occur during fire, such as any hazardous combustion products created when the chemical burns.
- Special fire-fighting procedures for fire caused by the chemical.

Section 6: Accidental Release Measures

This section provides recommendations for the appropriate response to spills, leaks, or releases that occur during normal use of the chemical. The information includes:

- Recommendations for personal protective or environmental measures to prevent exposure to people, properties, or the environment. It may also include recommendations (distinguishing between responses for large and small spills) about the right order of a spill/leak response and the hazard. The required information may consist of recommendations for:
 - Use of personal precautions (such as removal of ignition sources or providing adequate ventilation) and/or protective measures (such as eye protection, respirators, and clothing).
 - Emergency procedures, including instructions for a spill/leak response.
 - Methods used to contain or clean up a spill/leak (e.g., diking, bunding, and covering).
 - Cleaning procedures (e.g., appropriate techniques for decontamination).
 - Decontamination, cleaning or decontaminating sufficient equipment, and/or equipment required for clean up.

Section 7: Handling and Storage

This section provides guidance on the safe handling practices and safe storage of chemicals. The required information consists of:

- Conditions for handling the chemical (e.g., avoiding contact with water, and providing adequate ventilation) and/or protective measures (such as eye protection, respirators, and clothing) to be used.
- Recommendations on the conditions for safe storage, including any incompatibilities.
- Provision of advice on specific storage (e.g., segregation).

Section 8: Exposure Controls/Personal Protection

This section provides information on the exposure controls and personal protective measures that can be used to reduce exposure to the chemical. The required information consists of:

- Occupational Exposure Limits (OELs), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Values (TLVs), and any other exposure limit used or recommended by the chemical manufacturer, importer, or distributor, providing the context of the values (e.g., time-weighted average, or use only in an enclosed system).
- Methods used for personal protection measures to prevent health or injury from exposure to chemical, such as personal protective equipment (PPE) (e.g., appropriate types of eye, face, skin, or respiratory protection) and/or other appropriate types of PPE, and/or any other personal protective equipment.
- Any other information that may be relevant to the chemical (e.g., use of gloves needed, such as nitrile or other rubber gloves and special treatment when appropriate).

Section 9: Physical/Chemical Properties

This section identifies physical and chemical properties associated with the chemical. The information includes:

- Appearance (physical state, color, etc.).
- Odor (threshold).
- Odor strength.
- Relative density.
- Refractive index.
- Boiling point.
- Freezing point.
- Flash point.
- Flammable limits (lower and upper).
- Autoignition temperature.
- Decomposition temperature and conditions.
- Stability.
- Reactivity.
- Other relevant information.

Section 10: Stability and Reactivity

This section describes the reactivity hazards of the chemical and the chemical stability information. This section is broken into three parts: reactivity, chemical stability, and other chemical stability information.

- Reactivity, which includes information on the chemical's reactivity with water, air, and other substances.
- Chemical stability, which includes information on the chemical's stability under various conditions.
- Other chemical stability information, which includes information on the chemical's stability under various conditions.

Section 11: Toxicological Information

This section provides information on the toxicological effects of the chemical. The information includes:

- Information on acute toxicity (e.g., LD50, LC50, etc.).
- Information on chronic toxicity (e.g., carcinogenicity, etc.).
- Information on reproductive toxicity (e.g., etc.).
- Information on other toxicological effects (e.g., etc.).

Section 12: Ecological Information

This section provides information on the ecological effects of the chemical. The information includes:

- Information on aquatic toxicity (e.g., etc.).
- Information on terrestrial toxicity (e.g., etc.).
- Information on other ecological effects (e.g., etc.).

Section 13: Disposal Considerations

This section provides information on the disposal considerations for the chemical. The information includes:

- Information on disposal methods (e.g., etc.).
- Information on disposal restrictions (e.g., etc.).
- Information on other disposal considerations (e.g., etc.).

Section 14: Transport Information

This section provides information on the transport information for the chemical. The information includes:

- Information on hazard class (e.g., etc.).
- Information on hazard label (e.g., etc.).
- Information on hazard statement (e.g., etc.).
- Information on hazard pictogram (e.g., etc.).
- Information on hazard code (e.g., etc.).
- Information on hazard category (e.g., etc.).
- Information on hazard division (e.g., etc.).
- Information on hazard sub-category (e.g., etc.).
- Information on hazard sub-division (e.g., etc.).
- Information on hazard sub-category (e.g., etc.).
- Information on hazard sub-division (e.g., etc.).

Section 15: Regulatory Information

This section identifies the safety, health, and environmental regulations specific to the chemical. The information includes:

- Information on safety, health, and environmental regulations (e.g., etc.).
- Information on other regulatory information (e.g., etc.).

Section 16: Other Information

This section provides information on other information relevant to the chemical. The information includes:

- Information on other information (e.g., etc.).

Employer Responsibility:

Employers must ensure that the SDS are readily accessible to employees for whom hazardous chemicals are used. This may be done in many ways, but employees must have immediate access to the information without leaving their work area when needed. The SDS is a key document for workers, emergency responders, and the general public. The SDS is a key document for workers, emergency responders, and the general public. Osha Msds Requirements 2013:

The Top Books of the Year Osha Msds Requirements 2013 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Osha Msds Requirements 2013 : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
