American Criminal Trials:

American Criminal Courts Casey Welch, John Randolph Fuller, 2013-02-19 *American Criminal Courts Legal Process and Social Context* is an introductory level text that offers a comprehensive study of the legal processes that guide criminal courts and the social contexts that introduce variations in the activities of actors inside and outside the court. Specifically the text focuses upon Legal Processes. U.S. criminal courts are constrained by several legal processes and organizational structures that determine how the courts operate and how laws are applied. This book explores how democratic processes develop the criminal law in the United States: the documents that define law (federal and state constitutions, legal codes, administrative policies), the organizational structure of courts at the federal and state levels, the overlapping authority of the appeals process, and the effect of legal processes such as precedent, jurisdiction, and the underlying legal philosophies of various types of courts. Although most texts on criminal courts do a credible job of describing legal processes, this text looks more deeply into the origins of criminal law, historic turning points in the criminal law, conditions that affect the decision making of criminal justice practitioners, and the contentious political process that affects how criminal laws are considered. **Social Contexts** The criminal courts are staffed by people who represent different perspectives, occupational pressures, and organizational goals. The text includes chapters on actors in the traditional courtroom: workgroup judges, prosecutors, and defense attorneys, as well as those outside the court who seek to influence it, including advocacy groups, media, and politicians. It is the interplay between the court, legal processes, and the social actors in the courtroom that makes the application of the criminal laws so fascinating. By focusing on the tension between the law, legal processes, and the actors inside and outside the courts system, social contexts, this text demonstrates how the courts are a product of law in action, and it presents the course content in a way that enables students to understand not only the how of the U.S. criminal court system but also the why.

American Criminal Trials Peleg Whitman Chandler, 1841 **American Criminal Courts** Cliff Roberson, Frank DiMarino, 2012 Taking a practical approach *AMERICAN CRIMINAL COURTS* covers the entire criminal courts system in a manner which is understandable to students studying criminal justice, government, public administration, and other judicially related topics. It includes a descriptive analysis of local, state, federal, and international courts and discusses the jurisdiction, processes, and jurisprudence of each court. *Law in Action* boxes address emerging trends such as political pressure, language barriers, security in the courtroom, and special courts. The book also explains the roles played by the judges in each type of court, as it pertains to judicial selection, judicial decision making, and judicial review. *American Criminal Trials, by Peleg W. The Crisis in America's Criminal Courts William R. Kelly,2021-08-15 The Crisis in America s Criminal Courts highlights a variety of problems that judges prosecutors and public defenders face within a criminal justice system that is ineffective unfair and extraordinarily expensive While many argue and author William R Kelly agrees that crushing caseloads and court dockets certainly qualify as a crisis Kelly suggests there is a much greater crisis in the courts that results in profound downstream effects on criminal justice performance and outcomes It sounds simple but the greatest risk faced by the justice system is the lack of time expertise and resources for effective decision making In this book Kelly proposes a variety of evidence based reforms that as a start provide the key decision makers with professional clinical experts to accurately assess and advice regarding mitigating the circumstances that bring individuals into the courts We must rebalance We need incarceration for those who are too dangerous or violent or who are habitual offenders For most of the rest we need to manage risk but very importantly it is time to get serious about behavioral change We need to change the culture of the courthouse and reorient how we think about crime and punishment
