An American Genius: The Life of Ernest Orlando Lawrence, Father of the Cyclotron Herbert Childs, 2019-08-09
Born and raised in a small South Dakota prairie town Ernest Orlando Lawrence 1901 1958 the grandson of Norwegian immigrants was educated in country schools and attended the universities of South Dakota Minnesota and Chicago before obtaining his PhD at Yale in 1925 At age 29 he became the youngest full professor in the history of the University of California at Berkeley He received the Nobel prize in 1939 for his invention of the cyclotron which became an essential tool during the Manhattan project to enrich uranium via electromagnetic separation at Oak Ridge Tennessee Lawrence founded and directed Berkeley's Radiation Laboratory where ever more powerful cyclotrons were built for basic research and to produce radioisotopes for medical and industrial uses With Edward Teller he advocated for the creation in 1952 of the Livermore National Laboratory to spur innovation provide competition to Los Alamos and focus on the development of thermonuclear weapons Lawrence had a lasting influence on American physics as the mentor and inspiration of a whole new generation of scientists and through his role advising the top echelons of American government research and industry When he died at the age of 57 President Eisenhower said that in a real sense Lawrence had given his life for his country A remarkable book must reading for anyone in the scientific or engineering development fields whether he be a scientist a researcher a developer or even a student still full of dreams of achievement Throughout the book the author has constantly brought out the qualities that made Ernest great General Leslie R Groves former head of the Manhattan project A detailed record of the life of an extraordinary man The author was able to draw on vivid recollections of some 800 people who had known Lawrence and could provide what amounts to a series of detailed eyewitness accounts of important events in Lawrence's life a unique and valuable biography those who have some memory of Lawrence will find this book fascinating and historians will find it a rich source Philip H Abelson Science No other biography portrays so well the atmosphere of scientific research in America during the transition from small laboratories to gigantic institutions Herbert Childs has made the story of Lawrence's life and of his many accomplishments into a story that can be appreciated by any intelligent reader and is at the same time a most valuable addition to the scholarly history of science Herbert Childs inspiring story of a great and generous pioneer and leader of modern physics is a definitive account of an era that was and will remain unique in the history of science Mark L Oliphant Physics Today This is an extraordinary book about an extraordinary man it provides a picture almost without parallel of the life and actions of a great man of science Ralph E Oesper Journal of Chemical Education

Cancer, Radiation Therapy, and the Market Barbara Bridgman Perkins, 2017-08-16 Cancer Radiation Therapy and the Market shows how the radiation therapy specialty in the United States later called radiation oncology co evolved with its device industry throughout the twentieth century Academic engineers and physicians acquired financing to develop increasingly powerful radiation devices initiated companies to manufacture the devices competitively and designed

hospital and freestanding procedure units to utilize them In the process they incorporated market strategies into medical organization and practice This provocative inquiry concludes that public health policy needs to re evaluate market driven high tech medicine and build evidence based health care systems The 20th Century Go-N Frank N. Magill,2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography

Collisions Alec Nevala-Lee,2025-06-10 From the acclaimed biographer of Buckminster Fuller a riveting biography of the Nobel Prize winning physicist who became the greatest scientific detective of the twentieth century To his admirers Luis W Alvarez was the most accomplished inventive and versatile experimental physicist of his generation During World War II he achieved major breakthroughs in radar played a key role in the Manhattan Project and served as the lead scientific observer at the bombing of Hiroshima In the decades that followed he revolutionized particle physics with the hydrogen bubble chamber developed an innovative X ray method to search for hidden chambers in the Pyramid of Chephren and shot melons at a rifle range to test his controversial theory about the Kennedy assassination At the very end of his life he collaborated with his son to demonstrate that an asteroid impact was responsible for the extinction of the dinosaurs igniting a furious debate that raged for years after his death Alvarez was also a combative and relentlessly ambitious figure widely feared by his students and associates who testified as a government witness at the security hearing that destroyed the public career of his friend and colleague J Robert Oppenheimer In the first comprehensive biography of Alvarez Alec Nevala Lee vividly recounts one of the most compelling untold stories in modern science a narrative overflowing with ideas lessons and anecdotes that will fascinate anyone with an interest in how genius and creativity collide with the problems of an increasingly challenging world
