Norman Lock

American Fiction:

The Boy in His Winter Norman Lock, 2014-04-28 Huck Finn's mythic adventures and childhood abruptly end when he steps off his raft into Hurricane Katrina. Huck Finn and Jim float on their raft across a continuum of shifting seasons feasting on a limitless supply of fish and stolen provisions propelled by the currents of the mighty Mississippi from one adventure to the next. Launched into existence by Mark Twain, they have now been transported by Norman Lock through three vital, violent, and transformative centuries of American history. As time unfurls on the river's banks, they witness decisive battles of the Civil War, the betrayal of Reconstruction's promises to the freed slaves, the crushing of Native American nations, and the electrification of a continent. While Jim enters real time when he disembarks the raft in the Jim Crow South, Huck finally comes of age when he's washed up on shore during Hurricane Katrina. An old man in 2077, Huck takes stock of his life and narrates his own story, revealing our nation's past, present, and future as Mark Twain could never have dreamed it. The first stand-alone book in The American Novels series, *The Boy in His Winter* is a tour de force work of imagination, beauty, and courage that re-envisioned a great American literary classic for our time. *Sibling Romance in American Fiction, 1835-1900*

E. VanDette, 2013-02-06 This study posits that the narrative of sibling love as a culturally significant tradition in nineteenth-century American fiction. Ultimately, Emily E. VanDette suggests that these novels contribute to historical conversations about affiliation in such tumultuous contexts as sectional divisions, slavery debates, the Civil War, and Reconstruction. **Homicide in American Fiction, 1798-1860**

David Brion Davis, 2018-03-15 No detailed description available for *Homicide in American Fiction, 1798-1860*. *Asian American Fiction After 1965*

Christopher T. Fan, 2024-04-23 After the 1965 Immigration and Nationality Act loosened discriminatory restrictions, people from Northeast Asian countries such as South Korea, Taiwan, Japan, and eventually China immigrated to the United States in large numbers. Highly skilled Asian immigrants flocked to professional, managerial occupations, especially in science, technology, engineering, and math. Asian American literature is now overwhelmingly defined by this generation's children, who often struggled with parental and social expectations that they would pursue lucrative careers on their way to becoming writers. Christopher T. Fan offers a new way to understand Asian American fiction through the lens of the class and race formations that shaped its authors, both in the United States and in Northeast Asia. In readings of writers including Ted Chiang, Chang-rae Lee, Ken Liu, Ling Ma, Ruth Ozeki, Kathy Wang, and Charles Yu, he examines how Asian American fiction maps the immigrant narrative of intergenerational conflict onto the two cultures' conflict between the arts and sciences. Fan argues that the self-consciousness found in these writers' works is a legacy of Japanese and American modernization projects that emphasized technical and scientific skills in service of rapid industrialization. He considers Asian American writers' attraction to science fiction, the figure of the engineer, and notions of the post-racial modernization theory and time travel, and what happens when the dream of a stable professional identity encounters the realities of deprofessionalization and proletarianization. Through a transnational and historical materialist
