American Foundations An Investigative History:

American Foundations Mark Dowie,2002-08-23 In American Foundations Mark Dowie argues that organized philanthropy is on the verge of an evolutionary shift that will transform America's nearly 50,000 foundations from covert arbiters of knowledge and culture to overt mediators of public policy and aggressive creators of new orthodoxy. He questions the wisdom of placing so much power at the disposal of nondemocratic institutions. As American wealth expands, old foundations such as Ford, Carnegie, Rockefeller, Pew, and MacArthur have grown exponentially, while newer trusts such as Mott, Johnson, Packard, Kellogg, Hughes, Annenberg, Hewlett, Duke, and Gates have surpassed them. Foundation assets now total close to 400 billion. Though this is a tiny sum compared to corporate and government treasuries, and foundation grants still total less than 10 percent of contributions made by individuals, foundations have power and influence far beyond their wealth. Their influence derives from the conditional nature of their grant making, their power from its leverage. Unlike previous historians of philanthropy who have focused primarily on the grant maker, Dowie examines foundations from the public's perspective. He focuses on eight key areas in which foundations operate: education, science, health, environment, food, energy, art, and human services. He also looks at their imagination or lack thereof and at the strained relationship between American foundations and American democracy. Dowie believes that foundations deserve to exist and that they can assume an increasingly vital role in American society, but only if they transform themselves from private to essentially public institutions. The reforms he proposes to make foundations more responsive to pressing social problems and more accountable to the public will almost certainly start an important national debate.

American Philanthropic Foundations David C. Hammack, Steven Rathgeb Smith,2018-04-16 Once largely confined to the biggest cities in the mid-Atlantic and Great Lakes states, philanthropic foundations now play a significant role in nearly every state. Wide-ranging and incisive, the essays in American Philanthropic Foundations: Regional Difference and Change examine the origins, development, and accomplishments of philanthropic foundations in key cities and regions of the United States. Each contributor assesses foundation efforts to address social and economic inequalities and to encourage cultural and creative life in their home regions and elsewhere. This fascinating and timely study of contemporary America's philanthropic foundations vividly illustrates foundations' commonalities and differences as they strive to address pressing public problems.

The Foundations of Texan Philanthropy Mary L. Kelley, Mary L. Scheer,2004 The Lone Star State has produced not only revolutionary heroes and cowboy legends but also larger-than-life promoters of philanthropic activity. The Foundations of Texan Philanthropy, the first systematic study of the origins of foundation philanthropy in early twentieth-century Texas, chronicles the fortunes, motivations, and benefactions of affluent Texans who pioneered organized giving for the public good. In the three decades following the creation of the George W. Brackenridge Foundation in 1920, donors established approximately 180 private philanthropic institutions. These charitable-minded organizations funded medical research, established educational scholarships, and supported community projects. In

addition to the Brackenridge Foundation this book features George B Dealey and the Dallas Foundation Jesse Jones and the Houston Endowment Miss Ima and the Hogg Foundation for Mental Health the Amon G Carter Foundation and the Conference of Southwest Foundations which united the many foundations in the region The Foundations of Texan Philanthropy balances personal and family stories with the missions and financial operations of the foundations they established The result is a detailed look at some of the leaders of Texas history and the ways in which their largesse has continued to influence the history of the Lone Star State

The Routledge Companion to Philanthropy Tobias Jung, Susan D. Phillips, Jenny Harrow, 2016-05-17 Philanthropy the use of private resources for public purposes is undergoing a transformation both in practice and as an emerging field of study Expectations of what philanthropy can achieve have risen significantly in recent years reflecting a substantial but uneven increase in global wealth and the rolling back of state services in anticipation that philanthropy will fill the void In addition to this experiments with entrepreneurial and venture philanthropy are producing novel intersections of the public non profit and private spheres accompanied by new kinds of partnerships and hybrid organisational forms The Routledge Companion to Philanthropy examines these changes and other challenges that philanthropists and philanthropic organisations face With contributions from an international team of leading contemporary thinkers on philanthropy this Companion provides an introduction to and critical exploration of philanthropy discussing current theories research and the diverse professional practices within the field from a variety of disciplinary perspectives The Routledge Companion to Philanthropy is a rich and valuable resource for students researchers practitioners and policymakers working in or interested in philanthropy

Mrs. Russell Sage Ruth Crocker, 2006-11-01 This is the biography of a ruling class woman who created a new identity for herself in Gilded Age and Progressive Era America A wife who derived her social standing from her robber baron husband Olivia Sage managed to fashion an image of benevolence that made possible her public career In her husband s shadow for 37 years she took on the Victorian mantle of active reforming womanhood When Russell Sage died in 1906 he left her a vast fortune An advocate for the rights of women and the responsibilities of wealth for moral reform and material betterment she took the money and put it to her own uses Spending replaced volunteer work suffrage bazaars and fundraising fates gave way to large donations to favorite causes As a widow Olivia Sage moved in public with authority She used her wealth to fund a wide spectrum of progressive reforms that had a lasting impact on American life including her most significant philanthropy the Russell Sage Foundation

Leadership in Nonprofit Organizations Kathryn A. Agard, 2011 Leadership in Non Profit Organizations tackles issues and leadership topics for those seeking to understand more about this dynamic sector of society A major focus of this two volume reference work is on the specific roles and skills required of the non profit leader in voluntary organizations Key features include contributions from a wide range of authors who reflect the variety vibrancy and creativity of the sector itself an overview of the history of non profit organizations in the United States description of a robust and diverse assortment of organizations

and opportunities for leadership an exploration of the nature of leadership and its complexity as exemplified in the non profit sector availability both in print and online this title will form part of the 2010 Encyclopedia Collection on SAGE Reference Online The Handbook includes topics such as personalities of non profit leaders vision and starting a nonprofit organization nonprofit law statutes taxation and regulations strategic management financial management collaboration public relations for promoting a non profit organization human resource policies and procedures **Supercharged Giving** Byron R. Harrell,2009 National Journal ,2003-04 Dictionary of American History: Native to pyramid ,2003 Legitimacy of Philanthropic Foundations Kenneth Prewitt,2006-10-27 Provides a thorough examination of why foundations exist and the varied purposes they serve in contemporary democratic societies *Dictionary of American History* Stanley I. Kutler,2003 The third edition first published in 1940 and last revised in 1976 has been updated completely the editors have revised 448 articles replaced 1 360 articles and added 841 new entries Gender race and social history perspectives have been added to many entries In another departure from the earlier editions the editors have added maps and illustrations throughout the text American Libraries May 2003 **ARNOVA News** ,2001 **Foundations and Evaluation** Marc T. Braverman,Norman A. Constantine,Jana Kay Slater,2004-08-30 Based on rigorous research funded by the Packard Foundation Foundations and Evaluation provides a state of the art guide to the practice of evaluation in the foundation world The book presents contributions from all the leading thinkers in the field of evaluation and promotes and advances the critical uses of evaluation within the foundation context This intellectual groundwork promises to make a lasting difference in the effectiveness of philanthropic efforts throughout the world *America, History and Life* ,2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Reconnecting Education and Foundations** Ray Bacchetti,Thomas Ehrlich,2007 Praise for Reconnecting Education Foundations Ray Bacchetti and Thomas Ehrlich have brought together an impressive constellation of thinkers to consider philanthropy s fundamentally important role in American education past present and future Thomas Toch cofounder and codirector Education Sector This volume provides a critical and constructive analysis of relationships between foundations and education institutions It offers thoroughly researched well reasoned and very practical suggestions for increasing foundations impact on the quality of K 12 and university education Deborah Stipek dean Stanford University School of Education This fascinating book the outcome of a project to mark the one hundredth anniversary of the Carnegie Foundation for the Advancement of Teaching asks the crucial question whether foundations can and should invest in educational capital in this new century now that the historic consensus on what makes for good education has given way to an era of uncertainty and politicization as to the goals of education The book will convince readers that the stakes are high in resolving this dilemma in educational investment Stanley N Katz director Center for Arts and Cultural Policy Studies Woodrow Wilson School Princeton University This impressive book by Bacchetti Ehrlich and their knowledgeable coauthors unveils through sound research and analysis the interlocking and often tension ridden

tripartite relationships among the institutions of private philanthropy i e foundations schools and colleges It is a must read for Messrs Buffett and Gates along with thoughtful practitioners academics and policy analysts in the fields of philanthropy and education It doesn t provide all of the answers but raises many very important questions Donald M Stewart visiting professor the Harris School of Public Policy Studies University of Chicago *Great Debates in American Environmental History [2 Volumes]* Brian C. Black,Brian Black,Donna L. Lybecker,2008-05-30 Examines the most important and controversial environmental issues in the history of the United States from the Colonial period to the present Describes the issues the stakeholders of various positions and both the immediate outcome of the debate and the long term consequences of the result **Great Debates in American Environmental History** Brian Black,2008 *The British National Bibliography* Arthur James Wells,2001 *Book Review Digest* ,2002 *The Nation* ,2009

American Foundations An Investigative History Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**American Foundations An Investigative History**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
